Leithbridge RS - 8 (16:00)

Operation: Coutts Freedom Protest

Written by: Sgt. Robert HARMS #57662

Position/Role: Operations Supervisor for General Duty and Quick Response Team

Date Written: 2022-Feb-04

Watchguard footage: Yes

Notes: Yes.

Pre Incident Information: I was the Operations Supervisor since onset of the protest. My role involved front line supervision of all general duty members. On the day of this occurrence, Hwy 4 was closed and several officers maintained several checkpoints at the hwy closure, along county roads, and in/near the town. A build up of protestors had occurred at Hwy 4 at the intersection of hwy 501 W. This check point was named CP10 during the operation. It was typical to have approx. 15 police cars at CP10 to maintain the highway closure. CP10 fell under the charge of Sgt. Egan HENDERSON during this occurrence. Also noteworthy is that STO was initiating an operation to clear the road blockage in Coutts.

2022-02-01

13:10 hrs – I was preparing my team to provide support to the STO team. This included shifting members to key locations and assigning some to the STO team operation. The STO team was preparing to engage parked trucks and protestors in the town of Coutts near the truck scale for the purpose of opening the hwy.

13:15 hrs – I proceeded to, and positioned myself at the intersection of Hwy 4 and RR155 / Twp 11A also known as CP4. This intersection is approx. 1 km north of Coutts. It is also between Coutts and CP10 and is approx. 100 m south of a railroad crossing. Hwy 4 is a split 4 lane highway at this location. Sgt. HENDERSON, at CP10, advised on the radio that protestors at were becoming active or agitated. Sgt. HENDERSON then advised that protestors told him they were going to breach his roadblock and to step aside (or similar).

13:18 hrs (approx.) – Sgt. HENDERSON, advised that that several protestors had breached his roadblock with various vehicles. Sgt. HENDERSON advised that vehicles were southbound in the northbound lanes. Sgt HENDERSON then advised that his team withdrew from holding the northbound lane to avoid injury and collisions and that approx. 30 to 60 vehicles were southbound towards Coutts in both lanes. Through sporadic radio traffic I learned that vehicles included tractors.

I remained at CP4 as it was a key location to attempt to stop traffic and it was directly north of the STO team which was now deployed. I remained in contact with the Command Post and was directed to hold positions and not attempt further blockage of hiway. Only direction given was to watch the flank of STO which I ensured was adequately covered by assisting members

13:22 hrs (approx.) – Sgt. HENDERSON advised his team was attempting to re-take the highway and deploy blockage.

13:23 hrs (approx.) – Sgt. HENDERSON advised his team was successful and re-secured CP10. He estimated 30 to 60 vehicles were southbound and further indicated some of the vehicle had turned around and returned to CP10.

As I waited for the protestors, I observed northbound traffic on hwy 4; approx 1 pickup and 4 semi trucks; I knew this to be dangerous with oncoming vehicles in wrong lane.

13:33 hrs - I observed several RCMP vehicles (not associated to my team) set up a complete road blockage on hwy 4 directly across from CP4 in the north bound lane. Moments later the protestors encountered the blocked highway. I was shocked to see the convoy was led by 2 fast traveling tractors; they encountered the roadblock and did not slow down on approach. As the lead tractor got near the RCMP vehicles, it cranked hard to the right, entered the median, then returned to the roadway in a southern direction. The lead tractor was driven by an older man, approx. 65 with facial hair. The tractor was green with red rims and large tires (double tires on rear). A second tractor did same as the first. The driver appeared very young; late teens which I found shocking and disappointing. This tractor was green with yellow rims and large tires. The tractors and the following convoy of approx. 60 vehicle continued into Coutts.

Horns were honking throughout this event. All teams were directed to remain on post with no engagement unless directed. Eventually the STO disengaged and left the area.

19:53 hrs – I was leaving the command post and heard Unit SE205 advise that a tractor had entered his checkpoint (CP12) and drove at him in what he described was a threatening manner. The member advised that he had to move his police vehicle as he thought the tractor was going to run into him. He stated the tractor parked and when told to move the tractor driver stated he was not moving several times. The member advised that unexpectedly an ambulance showed up to pass by on the roadway and the tractor driver moved but stated he was coming back with more people. I attended the location and the member reiterated same details. During my response to this incident, other checkpoints were advising that they were being probed in a similar manner including by trucks where the occupants were stating things like you guys are going to get it.

As I was speaking to the member, I could see 2 tractors and a pickup truck approaching from the SE; this was the area which the member said the tractor departed towards and I recognized it was the same area where the Saloon, also known as the protestors headquarters, was located.

I intercepted the small convoy approx. 1 block east of the CP12. 2 persons were in the lead tractor; a female of approx. 16 years old and an older male with facial hair. The tractor was a green tractor with red rims and an odd space between the dual tires on the rear. I recognized the tractor as the lead tractor from the convoy that breeched the roadblock earlier in the day. I convinced the driver to exit the tractor, which eventually he did after making it clear I wanted to talk to him. I recognized the tractor driver as the driver whom was driving the tractor during the breach earlier in the day. I further observed that the other tractor was green with yellow rims; I recognized it as the 2nd tractor that breached the roadblock earlier in the day.

In an attempt to diffuse the current situation of several persons probing checkpoints and the recent breach of a roadblock, I entered into a long lecture with the tractor driver. In summary, I demanded that the probing stops now and highlighted the danger of it. While discussing, the driver stated he was

not a criminal and nothing further was going to happen. I took the opportunity to highlight the several criminal offences that the driver was involved in including from breaching the roadblock earlier in the day. Eventually the driver stated he felt ashamed of his actions and stated he was a county councillor. Some time shortly after, he advised he was **Personal Info.** I advised him that I was shocked and expressed my disappointment. He further advised that the second tractor behind him was his 18-year-old son; I further expressed by shock and disappointment. The female exited the tractor and joined the discussion, as did an unknown protestor on foot. I also spoke to lawful protests and some things they may consider. I demanded they call off the Probing of all checkpoints and demanded they not breach checkpoints going forward. **Pers.** agreed to call off the probing and stated he did not want to be involved in criminal acts. He and the small convoy left the area and returned to the Saloon area.

20:42 hrs - The same vehicles returned as did a man on foot whom stated he was **Person** and part of the protest group. This time the driver of the following tractor exited and approached me. I immediately recognized him as the young man that was driving the second tractor during the checkpoint breach. I advised him right away that I recognized him and advised that he was not smart enough to cover his face like other protestors. He looked shocked. He advised he told "them" that he did not want to do what he did and will not do it again (or similar). He advised he was 18 years old and I took the opportunity to explain the many offences that he committed today. During discussions, I made it clear that what was done could not be undone and although not arresting now there may be consequences to their actions. **Pers.** told me that his son was **Person**.

Eventually **Pers.** advised me that he wanted to exit the protest group. He, his son, and the following vehicle left my position. I spoke to **Person** mainly about probing our checkpoints and demanded he call it off to which he agreed. I also highlighted the offences being committed and encouraged compliance.

Shortly afterwards, **Pers.** his son, and the following vehicle attended my point and advised they are done protesting and wanted access to a closed road to exit the town as the town was barricaded. Access and a police escort was provided; the 2 tractors, pickup trucks, and occupants left town.

2022-Feb-02

07:01 hrs – Intel analyst Jonathon LASTON showed me photos of **Personal Info.** on his laptop; I confirmed it was the same **Pers.** I spoke to. LASTON showed me and advised this was a website of, or in relation, to **Personal** a farm **Personal Info.** or similar).

2022-Feb-03

16:30 hrs (approx.) – I was parked approx. 100m south of CP10 watching a massive buildup of protestors. A pickup truck stopped near me and a male exited and walked towards me. I recognized him as **Pers.** He advised that he wanted to stop and tell me that he was officially done protesting and thanked me for the previous discussions and not arrested him. I advised him that he may be arrested in the future to which he understood.

Good day Person [REDACTED]

I am betting you heard about the 4 guys at the Coutts Protests that were charged with conspiracy to commit murder. One of them is Anthony OLIENICK whom is local to Claresholm or somewhere nearby. I am curious if the M.D. can help me with the following regarding him:

1. Does he own a house in the MD and if so what is the address?
2. Does he have any other properties such as businesses in the M.D , if so what is the addresses?
3. Do you know of any other properties he is affiliated to in the M.D.?

Let me know, feel free to call if any questions. Please keep this on the down low.

Sgt. Robert HARMS #57662

Roles, Responsibilities, and deployment dates

1. 2022-Jan-29 to 2022-Feb-03 – Was deployed as Operations NCO / Front Line Supervisor for General Duty members. I had discussions with District leading up to the start date, observed convoy travel to the border, and supervised General Duty Members on the ground.
2. 2022-Feb-06 to 2022-Feb-13 – Returned to Coutts to work SET (Strategic Engagement Team) which was to engage persons, groups, partners as identified by command. This included protestors, elected officials, land owners, partners, etc.
3. 2022-02-17 to 2022-02-20 – I was engaged in the Claresholm area to investigate and gather information for a ITO/Search Warrant on the OLIENICK property. Coordinated GD members for same.
4. 2022-02-21 to 2022-02-24 – Returned to Coutts to work Bronze Command on VRT (Vehicle Recovery Team). Was charged with moving seized vehicles and assets as required and securing. Helped with demobilization of the operation with Silver Command.

Date: February 20, 2022 3:35:10 PM

Rob,

Do you have a list of the members that were at CP10 when the breach happened (including partner agencies). I want to write them all 1004's . That was a high stress moment and I think they deserve a mention.

If you don't I can try to piece together who all was there but I thought I would try you first.

Sgt. Egan HENDERSON,
Watch Commander, D Watch

Subject: Callout for Members - Milk River
Date: February 23, 2022 2:40:18 PM
Importance: High

***** Forwarded on behalf of S/Sgt. Kevin Charles, Acting Ops Support Officer, Southern Alberta District *****

Good afternoon Commanders,

We are looking for two enhanced members to work 1000-2200 hrs at Milk River Detachment in two rotations, March 1-4 and 5-8 inclusive. These members will supplement the Milk River schedule with their primary responsibility being to patrol in the area of the Port of Coultts and the lawful protest site and to respond to any issues related to the protests.

These members will fall under the supervision of the Milk River commander, Cpl Mike Brown. All EDP and related expenses are to go under:
Cost Centre K0961
Internal Order 749810
File 2022-120369

Members will be responsible for their own meals and accommodations.

Please have your available members reach out directly to Cpl Mike Brown at Milk River Detachment.

Any questions, please reach out to S/Sgt Chris Zanidean.

Thank you
Kevin

NATIONAL DISTRIBUTION TO INDIVIDUAL MAILBOXES APPROVED BY GAIL JOHNSON, CHIEF HUMAN RESOURCES OFFICER, ON FEBRUARY 21, 2022.
DISTRIBUTION NATIONALE AUX BOÎTES INDIVIDUELLES APPROUVÉE PAR GAIL JOHNSON, DIRIGEANTE PRINCIPALE DES RESSOURCES HUMAINES, LE 21 FÉVRIER 2022.

(le français suit)

The last few weeks the RCMP has taken part in operations to end illegal blockades and unlawful protests safely and peacefully. You have worked long and difficult hours and I want to thank each and every one of you for your continued support, commitment and professionalism.

At the end of a long day, we all deserve downtime with colleagues, family and friends. That said, we live in an era of 24-hour news cycles, social media and instant messaging, and the interactions we have with one another - and the public we serve - shape the public's perception of our organization and its members. I am asking that you be aware of your presence both in person and online and always consider the [potential harm of social media on the reputation of the RCMP](#).

The taking and sharing of photographs, especially while on duty, could undermine operations and risk officer safety. Social media and text messaging applications are vulnerable, so private text messages and photos shared between colleagues or friends may get leaked and become the story of the event. Moreover, there is growing concern about the spread of disinformation, as photos and videos of our members are being circulated, out of context, to misrepresent the members of the RCMP as bad actors who seek to harm members of the public or who are aligned to a particular ideology.

Please remember that the eyes of the world (literally) are on us and on our country. Maintain self-awareness both professionally and personally, and continue to represent us in the extraordinary manner that has come to symbolize the police response to these events.

Gail Johnson
Chief Human Resources Officer

Dans les dernières semaines, la GRC a pris part aux opérations afin d'arrêter, d'une façon sécuritaire et pacifique, le blocage et les manifestations illégales. Vous avez travaillé de longues heures dans un contexte difficile et je tiens à remercier chacun d'entre vous pour votre soutien continu, votre engagement et votre professionnalisme.

À la fin d'une longue journée, nous méritons tous des moments de détente avec nos collègues, notre famille et nos amis. Cela dit, nous vivons à l'ère des cycles de nouvelles 24/7, des médias sociaux et des messageries instantanées. Les interactions que nous avons les uns avec les autres et avec le public que nous servons façonnent la perception qu'a le public de notre organisation et de ses membres. Je vous demande d'être conscient de votre présence, tant en personne qu'en ligne, et de toujours tenir compte du [risque d'entacher la réputation de la GRC par la publication de messages dans les médias de sociaux](#).

La décision de partager des photos, particulièrement quand vous êtes en devoir, peut saper le déroulement des opérations et mettre à risque votre sécurité et celle de vos collègues. Les médias sociaux et les applications de messagerie texte sont vulnérables, de sorte que les messages texte privés et les photos partagées entre collègues et amis peuvent être divulgués et devenir l'histoire du jour dans les médias. En outre, la propagation hors contexte de vos photos et vidéos sert à la désinformation et à la promotion d'idéologie qui ne représente pas les membres de la GRC. En effet, ces partages vous présentent comme des gens non professionnels qui cherchent volontairement à blesser physiquement la population.

N'oubliez pas que les yeux du monde (littéralement) sont braqués sur nous et sur notre pays. Soyez conscient de vos gestes tant sur le plan professionnel que personnel. Continuez à nous représenter

comme vous le faite depuis le début des événements, cet à-dire de façon extraordinaire.

Gail Johnson

NATIONAL DISTRIBUTION TO INDIVIDUAL MAILBOXES APPROVED BY COMMISSIONER BRENDA LUCKI ON FEBRUARY 16, 2022.

DISTRIBUTION NATIONALE AUX BOÎTES INDIVIDUELLES APPROUVÉE PAR LA COMMISSAIRE BRENDA LUCKI, LE 16 FÉVRIER 2022.

(le français suit)

Ongoing Illegal Blockades

As we are now into the third week of illegal blockades and protests across the country, I wanted to take a minute to share some thoughts.

I know what it's like to come home from a 12 hour shift with wet feet, sore legs and an aching back. I know that uneasiness, the threat of hostility that lurks just below the surface, forcing you to be ready to react at a moment's notice. I know what it's like to have protestors taunting you into action and recording every interaction on their cell phones. Okay, maybe a stretch, when I was on Tac Team there weren't any cell phones 😊!

I also know there are some positives – the camaraderie on the front lines and the immense support offered by Public Servants and Civilians Members who have had our back every day since this started.

I know you're tired. We're all tired, but I also know that you'll continue to show up and give it your all because THIS is what we do!

With the Emergencies Act being invoked for the first time ever, all peace officers across the country, including the RCMP, will have additional tools to deal with public assemblies like the one in here in Ottawa, where there is serious and prolonged disruption to the economy and there are threats of violence. More details on the [Emergencies Act](#) will be provided for sharing and direction to the front line.

These are not easy times, but what is easy, is to get caught up in all the negative images. Let's continue working together with our law enforcement partners in this coordinated fashion and do everything we can to bring about a peaceful resolution to these events.

Thank you for representing the RCMP in such a professional manner. I hear you, I appreciate you and I thank you.

Brenda Lucki
Commissioner

Barrages illégaux

En cette troisième semaine depuis le début des barrages illégaux et des manifestations en différents endroits au pays, je voulais vous faire part de quelques réflexions.

Je sais ce que c'est de rentrer chez soi à l'issue d'un quart de 12 heures, les pieds trempés, les jambes endolories et le dos courbaturé. Je connais aussi ce genre de malaise, la menace d'une agression imminente qui vous met sur le qui-vive, prêts à réagir instantanément. Je sais ce que c'est que d'affronter des manifestants qui tentent de vous provoquer, prêts à enregistrer chacun de vos faits et gestes sur leur cellulaire. Bon, j'exagère peut-être un peu : à l'époque où je faisais partie d'une équipe antiémeute, il n'y avait pas de cellulaire 😊!

Mais il y a aussi des éléments positifs : la camaraderie sur la ligne de front et l'indéfectible soutien des employés de la fonction publique et des membres civils qui veillent sur nous depuis le début de la crise.

Je sais que vous êtes fatigués. Nous le sommes tous, mais je sais aussi que vous continuerez d'accomplir votre devoir sans compter parce c'est LA NATURE de notre travail!

Avec ce premier recours à la *Loi sur les mesures d'urgence*, les agents de la paix à la grandeur du pays, dont ceux de la GRC, disposent d'outils additionnels pour aborder les rassemblements publics comme celui qui est en cours à Ottawa et qui provoquent des perturbations graves et prolongées à l'économie, ponctuées de menaces de violence. Nous vous communiquerons plus de détails sur la [Loi sur les mesures d'urgence](#) pour vous permettre de transmettre des directives aux agents de première ligne.

C'est une période éprouvante, mais tâchons de ne pas nous laisser influencer par les images négatives. Continuons de travailler avec nos partenaires policiers de façon coordonnée et de faire tout ce que nous pouvons pour favoriser une résolution pacifique à la situation.

Merci de représenter la GRC avec tant de professionnalisme. Je vous comprends, je vous admire et je vous remercie.

Brenda Lucki,
commissaire

Subject: Conspiracy to Commit Murder - Anthony OLINICK B: **Personal**
Date: February 17, 2022 3:08:09 PM

Good day folks,

****This email is not to be disseminated****

As you all know, I was deployed to the Coutts Border Protests for the last 2 weeks and have chosen to take this week off (kind of) to get some R&R and burn some leave time. With that said, I wanted to touch on the disturbing events and findings that occurred in Coutts that involved the discovery of an arsenal of weapons, ammo, body armour, and more and the arrests of multiple suspects including Anthony OLINICK B: **Personal** whom is a local to Claresholm.

As we all know, OLINICK, like the others, has been formally charged with Conspiracy to Commit Murder. I do not know all the details but can tell you that their plan was very very real, and their target was RCMP officers. This, combined with the weapons cache, knowing he is from Claresholm, and knowing that he has friends and family from this area, tells me that we must operate with heightened awareness. In addition to this, I can tell you that several of the protestors we dealt with that acted unlawfully where from the areas of Claresholm, Fort Macleod, and surrounding areas. I am also aware that we have had protestors and supporters attend our Nanton and Claresholm Detachments in the last couple weeks challenging us regarding police actions on protestors. All too often we get complacent and comfortable with our surroundings but I would suggest tightening up a little bit and ensuring you have that Situational Awareness / head on a swivel mentality – which you should anyway.

Early this morning, I engaged with the Coutts investigators to speak to them about properties that OLINICK may have in the Claresholm area (thanks Dalyn) and if any actions are required in relation to those properties. Since then, Claresholm Det received 2 information files about OLINICK and storage of firearms in this area. As a result, the investigation team is focusing some of their efforts in our area. Going forward, if anymore information files are received regarding OLINICK, please start a file but do not take any actions – please advise me and we will forward these files for GIS to deal with.

If any questions, let me know.

From: [Zablocki, Curtis](#)
Subject: Coutts Border Blockades
Date: February 17, 2022 10:47:59 AM

Good morning:

This week saw the major protests and illegal blockades at the Coutts border crossing come to an end. After three and a half weeks of professional and measured response from our employees, our law enforcement partners, and other federal agencies, a safe and peaceful outcome was achieved. Although protestors have moved on, we will continue to be poised and ready to respond to any future events, as we are certain this is not the last we will see in the province.

I know that work wasn't easy to accomplish. So many employees came together, in so many capacities. Our Community Conflict Management Group members, everyone who worked in our Divisional Emergency Operations Centre, specialized units working behind the scenes to reduce risk and conduct investigations, frontline employees at the protests, and those who remained in home units to ensure the Division continued to maintain policing services – you have all worked together to resolve this emotionally charged event safely. Your professionalism in carrying out your work, no matter your personal beliefs, is so vital in situations like these.

There is much to be said about the community engagement, compassion and effectiveness that was displayed on the front lines of this event. Your measured responses helped to maintain calm and diffuse dangerous situations. That was evident in the great work that occurred around the seizure of the weapons cache. While judgement was publically made on the way we managed this event, there are many factors that determine how we respond in these situations. The weapons investigation was a very clear example of the dangers that were present, not known to those watching this unfold on the news and social media.

So much has occurred in response to the COVID pandemic over the past two years, and with each change and challenge, you have all adapted and continued

to come together to keep Albertans safe. Thank you. I am proud of the way you have continued to overcome these challenges.

Stay safe,
Curtis

Subject: Coutts/Lethbridge VRT Departure (Mar 1) - Update
Date: March 1, 2022 5:22:31 PM
Attachments: [image001.png](#)

Mar 1

Hello Staff,

Just a quick update for your information/reporting:

- All 4 remaining tow vehicles pre-positioned at the Coutts scales were fueled and returned to the Lethbridge GofA yard on 2022-02-28 @ 1500 hrs;
- All keys – including duplicates – along with ARI fuel cards and vehicle registrations were provided to Sheriff **Personal**. There was one surplus ARI card that was initially provided to members, however, this card was inadvertently transferred to Rick yesterday with vehicle keys. Short story: he will be dropping off this remaining fuel card (with receipts) to Cpl. Rylee Guckert at Coaldale who will mail it to DEOC for post-audit processing;
- VRT members assisted with the unloading of the chained-down loader on the gooseneck trailer attached to the Peterbilt tractor in order to confirm 'road-ability' for CVIP transport purposes;
- A private mechanical contractor was on-site to commence the transfer of vehicles to a shop for the purposes of CVIP inspection/repair;
- I cleaned out the Welcome Centre (Holiday Inn Express) and walked through the room with the hotel manager in order to officially close out our residency by Cpl. Jean Nault and his staff; and
- All Class 1/3 operators are alive to the potential that the request from DEOC regarding future deployments *may* come tomorrow, next week, next month or next year.

Lastly, thank you for allowing the opportunity to lead the 3rd VRT phase and GD roving patrol members as Bronze Command. I immensely enjoying with all of the deployed members but specifically yourself, Harms, Gord, Lee and Morty!

Regards,

Farid

Subject: DEOC Update - Covid 19
Date: February 24, 2022 9:29:25 AM

*** Forwarded on behalf of S/Sgt. Kevin Charles, Acting Ops Support Officer, Southern Alberta District ***

Good morning Commanders,

Here are the highlights from this morning's DEOC call:

- Across the Division, 40 employees are currently out with Covid; trending down.
- Reported active cases across the Province are dropping.
- A lot fewer PCR tests are being completed.
- 25% positivity rate.
- The only changes so far was the removal of the REP program.
- We anticipate an announcement this Saturday from the Provincial government to remove more restrictions, likely effective March 1st.
- We anticipate the "work from home" restriction will be lifted; it will be a case-by-case basis to continue to work from home and will be the Manager's decision on approval as well as how to re-integrate the employees. Contact labour relations for advice and guidance on work from home requests.
- Still require social distancing and barriers in the workplace.
- We will continue to follow the Provincial rules as opposed to the Federal rules when it comes to isolation (5 days plus 48 hours symptom free, whichever is greater).
- If an employee is not feeling well, stay home!
- Continue to report absences on KD6550.
- Masking – we will continue to follow legislation and bylaws. If these restrictions are lifted, we will continue to encourage members to wear masks.
- Operational members will need to complete a risk assessment for Covid and wear appropriate PPE.
- We will continue to supply masks to employees from K Stores.
- Do not buy masks locally – obtain from K Stores. The black masks from Costco, for example, are not approved PPE.
- There has been no mention or discussion on accommodations or LWOP employees. Status quo.
- Waiting on confirmation, but in-person training is being planned to resume.

- DEOC will be sending out a communique on Monday after Saturday's anticipated announcement.

Stay safe,
Kevin

Subject: FW: EDP Claims for Coutts

Good Afternoon Everyone,

We have just sent out the overtime instructions to everyone directly that we had on our nominal role. It was 546 employees.

There may be some members that were missed and I would ask that you send this to your units so

they have the instructions on how to submit EDP claims.

Thank you everyone for assistance with this.

James

Subject: EDP Claims for Coutts

Good Afternoon Everyone,

First we want to thank everyone for your patience on submitting your overtime for the Coutts Deployment. We know there were frustrations from the membership, and appreciate your concerns.

As this event was unique and the first time we have deployed a large number of members within a new collective agreement, we needed clarification from CMB on how best to ensure that your claims were inputted correctly. Unlike other major events where the shift schedule and OT are entered by a central group, we did not have this ability for this event. In order to ensure that your claims were being processed correctly, and for you to not encounter any delays or pay claw back, things that we have seen occur during other large deployments, we wanted to make sure that it was right the first time.

Although this event was declared as a Exceptional Circumstances, for the purpose of this deployment members are use their home unit schedule as the basis to determine any overtime and EDP claims.

Attached is a time sheet and instructions on how to submit your claim. We ask that you follow the instructions to make this as smooth as possible. Comments are needed on the time sheet and can be cut and pasted into the EDP claim.

All claims will be processed promptly, but as there are a high volume of claims there may be some minor delays, but please know we will process them as fast as we can.

We are asking that all claims be submitted no latter than April 15^{t.h}.

We appreciate your patience and understanding.

We have made all attempts to send this to everyone involved directly, but if we have missed someone, please forward this to them directly.

Thank you for all of the hard work you have done.

Hey Dwayne

As follow up to our phone call, your supervisor has approved you to extend your shift. You'll be available for the "training crossover" shift tomorrow(Sun), and then work Mon, Tue, Wed and Thur, then travel home Fri Feb 25.

Geri Ann- please sending joining instructions to Dwayne for the class 1/3 shift. I'll add him to our schedule.

Thanks all

Good afternoon

A need has been identified for 8x Class 1 or 3 trained Members to be in Coutts. The requirement is minimum 4x Class 1.

The schedule is as follows:

- Saturday, February 19, 2022 – travel to Lethbridge
- Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment
- Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)
 - 2 teams of 2 members working 09:00 – 21:00 hours
 - 2 teams of 2 members working 12:00 – 24:00 hours
- Friday, February 25, 2022 – return travel

Please seek approval/releasability from your supervisor, and respond either way. First come first serve.

Please also respond with your class of DL – same must be valid.

Thank you

Subject: Authorities quick-reference document, re: convoys, problematic vehicles at muster points etc

*** Forwarded on behalf of S/Sgt. Kevin Charles, Acting Ops Support Officer, Southern Alberta District ***

Hello District Ops Officers and ADOs, and Traffic Services,

Based on best practices and lessons learned especially in CAD/Edmonton with slow roll convoys, attached is a quick-reference/summary document for members and supervisors.

This could be shared with members working on convoys etc, electronically and/or as a printed-off sheet.

Of course this document is only a supplement to briefings and ops plan direction, but was requested as an additional tool.

If you have any feedback or updates to suggest, please contact me with a CC to Insp. Moreland; we would make changes and re-share as applicable.

Thanks,

Andrew

Subject: Throne Speech convoys, best practices re: problematic vehicles at convoy muster points

Hello Districts and Traffic,

I am sending this to Ops Officers and ADOs, with CC to DOs, given the short timeline before Tuesday's Throne Speech. This message is based on info from Supt. Pam Robinson in CAD, re: best practices and lessons learned with convoys, and subsequent issues at the Legislature.

Context: per page 10 of the attached OSINT, there are calls for convoys from all over the province to be in front of the Legislature for noon on Tuesday, to disrupt the Throne Speech. Unknown how many convoys will form, but reason to believe some considerable convoys may form up in SAD, WAD, or EAD (in addition to the expected CAD convoys).

Bottom line up front: the key lesson learned/best practice is engaging with the convoys as they gather at their muster points, to discuss/inform/deter/dissuade (and take enforcement action if appropriate), *before* the convoy gets rolling.

This is focused on drivers with oversized loads, horse trailers, farm equipment (driving same or on a

trailer), strange loads (why are you bringing a load of lumber to the Legislature?), or other notable or problematic items.

The summary is to engage these drivers, discuss/inform them of the consequences should they misuse or off-load their items at the Legislature, and ideally deter/dissuade them.

Supt. Robinson reports several successes, having problematic trucks being left behind at the muster point. Conversely, they also had a horse trailer at the Legislature today, leading to a “Lone Ranger” rider being essentially chased around the streets of Edmonton. We likely would have had no authority to prevent this driver from bringing his horse to town, but perhaps he could have been informed/deterred/dissuaded at the muster point.

I realize these ideas are surely the intent and actions already being taken in each District, but recent events in CAD emphasize the value of same. Supt. Robinson can chime in with specifics as applicable. She also has specific information regarding overpasses, exits, etc.

This message is to add to your ongoing Ops planning in each District, as/when any specific convoys are identified in your areas. Presumably more intel and clarity will develop in the next 24-36 hours.

Thanks all,

Andrew
(at DEOC, Provincial Silver for the weekend)

Subject: RE: Convoy question - **Personal Info.**

Hi Cst. Hoeppner,

Thank you for the discussion by phone, as discussed:

- You outlined that we need to contact Alberta Transportation.
- We are looking to see if the police would fine any of our members of our peaceful convoy in light of the emergency act that Justin Trudeau is putting in place.
- Alberta Transportation is not the appropriate division to contact to see if police fines will effect our convoy members.
- We are planning a peaceful convoy and would like to ensure there is no risk of fines to our fellow friends and family.

NEXT STEPS:

- Please outline if any fines would be issued considering the scope of the convoy described below.

Kind regards,

Personal Info.

Hi Cst. Hoeppner,

Thank you for the phone conversation this morning!

As discussed,

-Our Stavely, Claresholm, Nanton group has been doing slow roll convoys for the past couple weeks.
-We are looking to do another slow roll convoy this Saturday, February 19th, 2022.
-We depart from Stavely, slow roll to Nanton, head back south to Stavely, continue to Claresholm then we disperse.
-We will not be involved in a blockade of any form.
-During the slow roll which is approximately 40km/hr, all vehicles, tractors, machinery will have their hazard lights on.
-All slow roll convoy vehicles will remain in the right hand lane and will allow all traffic to pass as we have done in all our slow roll convoys to date.

I have reviewed the announcement from Chrystia Freeland and she is very clear that there are strict punishments for blockades. We will not be blockading any highway or road.

It seems clear that our convoy would not bring on any fines/punishments for the participants in this slow roll convoy, however I wanted to double check and work with the Claresholm and Nanton RCMP to ensure we can do this safely and lawfully.

Our participants are respectful of other vehicles on the hwy and we do not hold them up by keeping the left lane clear at all times.

Our intent is to have a peaceful, lawful and safe convoy.

Can you please confirm if there are any negative implications/fines that can result from our slow roll convoy that we plan on having this coming weekend.

Kind regards,

Personal Info.

Subject: CORRECTION: *URGENT CALLOUT* CLASS 1 Drivers for Coutts Deployment - Feb 23-Mar 1 (travel included)

Good morning,

A need has been identified for 4x Class 1 Members to be in Coutts for the following days:

- Wednesday, February 23, 2022 – travel to Lethbridge
- Thursday, February 24, 2022 – crossover training with the current team Members to learn how to operate the equipment
- Friday, Saturday, Sunday, Monday (February 25, 26, 27, 28)
 - 2 members working 09:00 – 21:00 hours
 - 2 members working 12:00 – 24:00 hours
- Tuesday, March 1, 2022 – return travel

Please seek approval/releasability from your supervisor, and respond either way regarding your availability. First come first serve.

Please also respond with your class of DL (Class 1 required) – same must be valid.

Thank you,
Matt - DEOC

Good morning Cpl. LeFrancois and Sgt. Siddiqui,

Thank you so much for volunteering – we absolutely could use you both as replies have been very sparse. Your rotation will be as follows:

Group: **CLASS1 A - 2**

NIGHTS: 12:00 – 24:00

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

Joining instructions will be sent out shortly.

Thank you so much again for helping us out,
Matt - DEOC

Cc: K DEOC / K CDOU (RCMP/GRC) <[redacted]>
Subject: Coutts/ Milk River - Demobilization Plan

Good day,

With protest activity in the Coutts/ Milk River areas currently limited to a lawful protest site just outside of Milk River, the threat level has decreased significantly. Based on discussions between Raymond Command Centre and SAD earlier this date, the following measured demobilization is being implemented:

Personnel:

Current VRT shift ends 2022-02-24. They depart for their home units on 2022-02-25. New shift arrives 2022-02-23 to commence crossover training. That shift works till 2022-02-28 and departs for their home units on 2022-03-01. This team will consist of 4 VRT and 1 ORT. Current VRT will not be replaced and management duties will be assumed by one of the drivers, Sgt. Farid SIDDIQUI.

Current GD compliment of 10 members will scale down to 6 as of 2022-02-24 and will consist of 5 members each from 2022-02-25 to 2022-02-28. From that date, Milk River Detachment augmented by 2 SAD resources will be responsible for patrolling the protest site outside of Milk River. A "road boss" will be identified within the incoming members.

This new deployment model will allow for a compliment of 10 members that can respond to potential incidents at or near the border until 2022-02-28. The VRT capability is embedded within this 10 member contingent and can be deployed as required. With weather warming up going into the weekend and early next week, it is likely we could see some increased movement around the Milk River protest site.

Security:

-

The secure vehicle compound located between the Fairfield Inn and Hampton Inn and Suites will remain open until the morning of 2022-03-01.

Commissionaires will continue to staff the compound from 22:00 to 10:00 hours.

Equipment:

-

4 light plants have been returned by VRT to AEMA Aldersyde site.

The 3 remaining light plants currently located in the secure compound in Lethbridge will be retained until 2022-03-01 and returned to United Rentals. DEOC has notified the owner to come and pick them up.

5 loaner vehicles, 2 from Post Garage and 3 from Red Deer City RCMP will be returned to their units using Meadowlark Towing.

5 additional PCs will be moved from the secure compound to Coaldale Detachment by GD members on or about 2022-02-24.

It is recommended that all tow vehicles be moved to the GOA compound in Lethbridge. This will allow those vehicles to be quickly brought into service should there be an escalation in protest/blockade activities.

This plan is subject to change as the situation dictates.

Regards,

Gord

Good Afternoon Everyone,

We have just sent out the overtime instructions to everyone directly that we had on our nominal role. It was 546 employees.

There may be some members that were missed and I would ask that you send this to your units so they have the instructions on how to submit EDP claims.

Thank you everyone for assistance with this.

James

Subject: EDP Claims for Coutts

Good Afternoon Everyone,

First we want to thank everyone for your patience on submitting your overtime for the Coutts Deployment. We know there were frustrations from the membership, and appreciate your concerns.

As this event was unique and the first time we have deployed a large number of members within a new collective agreement, we needed clarification from CMB on how best to ensure that your claims were inputted correctly. Unlike other major events where the shift schedule and OT are entered by a central group, we did not have this ability for this event. In order to ensure that your claims were being processed correctly, and for you to not encounter any delays or pay claw back, things that we have seen occur during other large deployments, we wanted to make sure that it was right the first time.

Although this event was declared as a Exceptional Circumstances, for the purpose of this deployment members are use their home unit schedule as the basis to determine any overtime and EDP claims.

Attached is a time sheet and instructions on how to submit your claim. We ask that you follow the instructions to make this as smooth as possible. Comments are needed on the time sheet and can be cut and pasted into the EDP claim.

All claims will be processed promptly, but as there are a high volume of claims there may be some

minor delays, but please know we will process them as fast as we can.

We are asking that all claims be submitted no latter than April 15^{t.h}.

We appreciate your patience and understanding.

We have made all attempts to send this to everyone involved directly, but if we have missed someone, please forward this to them directly.

Thank you for all of the hard work you have done.

K DEOC

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border.

Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - 2007 Freightliner M2, Flat bed
 - 2010 Dodge Ram 3500 Tow Truck
 - 2002 International 4300 Medium Tow Truck
 - 1996 GMC 3500 Tow Truck
 - 1998 Freightliner Classic, Heavy Tow Truck
 - 2010 Komatsu D61 Dozer with winch
 - 1999 Case 621B Wheel Loader
 - 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - 2008 Western Star Semi Tractor
 - 2006 Peterbilt Semi Tractor
 - 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is Kenneth Milos with Agriculture, mobile 403-634-0663).
 - The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.
- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca) **Irrelevant**

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the

- equipment will be required
- Action Item: Transportation will provide support for Commercial Vehicle Inspections on or before March 1st (while there is a possibility of extending exemption requirements, this is not the preferred option)
- Medium Term (Next two / three months) consideration:
 - Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Kind regards,

Pers

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend

- I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours
- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Subject: GoA - Tridem axle trailer
Date: February 20, 2022 1:04:51 PM
Attachments: [Damage 1 GoA Tridem Axle Trailer 20220217.jpg](#)

Pers,

I just wanted to touch base regarding one of the pieces of GoA equipment, the tridem axle trailer, procured for the Coutts Border protest/blockade. On 2022/02/17, when the Vehicle Removal Team was unloading a piece of seized equipment from the trailer, a couple boards on the deck broke (photo attached). It's not anything significant and the trailer is functional, but I wanted to make you aware. From the photo, it looks like the boards may not have been in the best shape. I'm checking in with DEOC to determine any reporting requirements on our end as well.

I'm off next week, but if you have any questions, please let me know: **Irrelevant**

Also, just to advise, the team will be moving all towing equipment back to the GoA's 30 Street North lot at the end of the day today. We'll likely still be using it next week.

Thanks,
Lee

Subject: Light Plants / Loaned PC's
Date: February 22, 2022 12:35:32 PM

Sgt. Harms as per our discussion,

- 1) We have 3 Light plants rented from United Rentals. One is at the Fairfield lot. The other two are at the other hotels?
Just wanting to confirm if we still need them? Also, when we have a demobilized date, please advise KDEOC so we can contact United Rentals to pick them up.
- 2) PC's loaned out by Post Garage and Red Deer:
 - 2 are being picked up by Meadowlark Towing , hopefully tomorrow, due to mechanical issues.
 - 3 are outstanding. Again wanting to ensure they are returned when we are demobilized. Cpl. Jean Nault may be able to drive one back to Post Garage. Believe 2 are from Red Deer Detachment.

I will confirm from post garage which Unit numbers these vehicles are , hopefully to make things easier to track.

Let me know if you have any questions.

Subject: Location for vehicles
Date: February 21, 2022 1:44:06 PM

Good Afternoon Rob,

Meadowlark Towing in Spruce Grove has agreed to store the equipment, and they are already a RCMP vendor used by Post Garage.

Perso is the contact and his number is **Personal Info.** He was told the equipment and the issues with the other storage locations. He does not see this as a issue as he no longer has a towing company and is mainly logistics.

As per our discussion, if you move the equipment to Airdrie scale off Hwy 2 tonight, DEOC is working with SAD to come up with one member to guard the equipment.

If you can work with **Perso** for a mechanic to assist with getting the tractor started so it can be driven off the trailer, as the trailer is GOA equipment and may be needed for towing elsewhere.

The location is off of Hwy 16 near the Ford Dealership, and **Perso** will give you the instructions. I will reach out to **Personal** about the overnight at the scale.

Let me know if you need anything further.

Canada

From: [Yetman, Gordon](#)
To: [Harms, Robert](#)
Date: February 23, 2022 7:03:55 PM

Good day,

With protest activity in the Coutts/ Milk River areas currently limited to a lawful protest site just outside of Milk River, the threat level has decreased significantly. Based on discussions between Raymond Command Centre and SAD earlier this date, the following measured demobilization is being implemented:

Personnel:

Current VRT shift ends 2022-02-24. They depart for their home units on 2022-02-25. New shift arrives 2022-02-23 to commence crossover training. That shift works till 2022-02-28 and departs for their home units on 2022-02-29. This team will consist of 4 VRT and 1 ORT.

Current GD compliment of 10 members will scale down to 6 as of 2022-02-24 and will consist of 5 members each from 2022-02-25 to 2022-02-28. From that date, Milk River Detachment augmented by 2 SAD resources will be responsible for patrolling the protest site outside of Milk River. A "road boss" will be identified within the incoming members.

This new deployment model will allow for a compliment of 10 members that can respond to potential incidents at or near the border until 2022-02-28. The VRT capability is embedded within this 10 member contingent and can be deployed as required. With weather warming up going into the weekend and early next week, it is likely we could see some increased movement around the Milk River protest site.

Security:

-
The secure vehicle compound located between the Fairfield Inn and Hampton Inn and Suites will remain open until the morning of 2022-03-01.
Commissionaires will continue to staff the compound.

Equipment:

-
4 light plants have been returned by VRT to Aldersyde.
The 3 remaining light plants currently located in the secure compound in Lethbridge will be retained until 2022-03-01 and returned to the rental company.
5 loaner vehicles, 2 from Post Garage and 3 from Red Deer City RCMP will be returned to their units using Meadowlark Towing.
5 additional PCs will be moved from the secure compound to Coaldale Detachment by GD members on or about 2022-02-24.
It is recommended that all tow vehicles be moved to the GOA compound in Lethbridge. This will

allow those vehicles to be quickly brought into service should there be an escalation in protest/
blockade activities.

Subject: Meeting with the Province
Date: February 23, 2022 1:49:43 PM

I was invited to a meeting with the Province with regards to the assets purchased for the towing/recovery of vehicles and equipment used during the protests.

Personal Info. called the meeting and the following persons were present:

Personal Info. (AB Gov)

Personal Info. (AB Gov)

Personal Info. (AB Gov)

Personal Info. (AB Gov Sherrifs)

I was the only representative of the RCMP who was invited to this meeting (not really sure why):

Topics Discussed:

The items currently owned by the AB Gov. related to the vehicle towing strategy is **exempt from CVIP inspection until March 1, 2022**. I was advised that if required this exemption can be extended so they are looking for some feedback on what the usage looks like going forward.

With respect to the equipment being used I advised that all the equipment is currently being used "actively in standby" as there is nothing to remove but that may change at any time. We are maintaining the use/availability of the equipment at this time until a decision is made to further reduce capacity.

What will be done with the equipment (surplus, transfer to RCMP, storage, disposal)

- Keep on hand until the summer.
- Store and maintain.
- Can be used by RCMP (potentially an end user agreement). Looking at a short term agreement.

Ultimately there was some discussion about what/how this specific equipment and/or similar equipment might be beneficial in the future moving forward in various capacities. Ultimately I advised the group that I would pass along the above for the consideration of RCMP management in K-Division to determine what/who should be involved and responsible for the discussion and decisions moving forward. I advised that it was not within my authorities to agree to anything that would result in liability or costs to the RCMP in Alberta but advised that I would be happy to assist however I can in supporting this process moving forward.

I note from my e-mail that I am not being asked to return to Lethbridge for the next deployment so I am forwarding this to you guys for your knowledge and consideration moving forward.

Let me know if there is anything else I can do.

Subject: RE: OT Inquiries from Employees Deployed to Coutts

Good morning Mel,

We are still working out the instructions with CMB for the process to enter everything in properly, as this has not been decided.

Please do not submit any overtime until the process is sorted out and further instructions will follow on the proper process. We do not want this to turn into previous deployments where there was money taking a long time, claw backs, as they froze all claims while it was being sorted. We want the right answers right off the start.

Thanks, James

Subject: Question - GoA - Tridem axle trailer
Date: February 20, 2022 12:42:48 PM
Attachments: [Damage 1 GoA Tridem Axle Trailer 20220217.jpg](#)

Morning James,

Just wanted to touch base regarding one of the pieces of GoA equipment, the tridem axle trailer. On 2022/02/17, when the VRT was unloading the Versatile tractor from the trailer, a couple boards on the deck broke (photo attached). It's not anything significant and the trailer can still be used. Would we loop the National Claims Centre in on this or leave it with the GoA as it's their equipment? I will send a message to **Personal Info.** our local Sheriffs contact, today to advise.

I'm off next week, but can make the call to NCMP if needed.

Thanks,
Lee

Hi Meg,

It was great working with you last week and seeing a successful outcome regarding the search warrant. Did you ever get a chance to return the garage door opener to our unit? If not no problem but I know Rebecca DINGLE is coming to our det tomorrow and I think the 2 of you work out of the same building...perhaps she could bring it if you still have it?

Subject: Conspiracy to Commit Murder - Anthony OLIENICK B: **Personal**

Good day folks,

****This email is not to be disseminated****

As you all know, I was deployed to the Coutts Border Protests for the last 2 weeks and have chosen to take this week off (kind of) to get some R&R and burn some leave time. With that said, I wanted to touch on the disturbing events and findings that occurred in Coutts that involved the discovery of an arsenal of weapons, ammo, body armour, and more and the arrests of multiple suspects including Anthony OLIENICK B: **Personal** whom is a local to Claresholm.

As we all know, OLIENICK, like the others, has been formally charged with Conspiracy to Commit Murder. I do not know all the details but can tell you that their plan was very very real, and their target was RCMP officers. This, combined with the weapons cache, knowing he is from Claresholm, and knowing that he has friends and family from this area, tells me that we must operate with heightened awareness. In addition to this, I can tell you that several of the protestors we dealt with that acted unlawfully where from the areas of Claresholm, Fort Macleod, and surrounding areas. I am also aware that we have had protestors and supporters attend our Nanton and Claresholm Detachments in the last couple weeks challenging us regarding police actions on protestors. All too often we get complacent and comfortable with our surroundings but I would suggest tightening up a little bit and ensuring you have that Situational Awareness / head on a swivel mentality – which you should anyway.

Early this morning, I engaged with the Coutts investigators to speak to them about properties that OLIENICK may have in the Claresholm area (thanks Dalyn) and if any actions are required in relation to those properties. Since then, Claresholm Det received 2 information files about OLIENICK and storage of firearms in this area. As a result, the investigation team is focusing some of their efforts in our area. Going forward, if anymore information files are received regarding OLIENICK, please start

a file but do not take any actions – please advise me and we will forward these files for GIS to deal with.

If any questions, let me know.

Hi Robert,

Thanks for the heads up on this, I appreciate the feed back. OLIENICK is in custody and hopefully will be for some time. It was our information that OLIENICK had sold his property and business to support this "cause". If that is not the case I would suggest that we look into writing a warrant for both of those locations. Would you be able to provide me some information if he still in fact has property in the area.

I have copied my command triangle and LAST member in on this email chain to get their heads wrapped around the possibility of obtaining the warrants.

Don't hesitate to reach out should you have any more info.

Thanks

Aaron

Hi Aaron,

First of all, I want to say "Good Job" on all the work you and your team have been doing in Coutts; it was great to see you all there and great to see some of the results. Regarding OLIENICK, he is obviously facing some serious charges and I assume currently in jail; can you confirm that he is remanded? OLIENICK resides in the Claresholm area and has a business in Claresholm. I am the Commander for this area. Some of our members are getting suggestions from the public that OLIENICK has or likely has a stash of guns at his residence or maybe at his business. I'm not sure how solid the info is but am curious if your unit is addressing firearms of persons charged such as OLIENICK? Let me know.

Subject: CORRECTION: *URGENT CALLOUT* CLASS 1 Drivers for Coutts Deployment - Feb 23-Mar 1 (travel included)

Good morning,

A need has been identified for 4x Class 1 Members to be in Coutts for the following days:

- Wednesday, February 23, 2022 – travel to Lethbridge
- Thursday, February 24, 2022 – crossover training with the current team Members to learn how to operate the equipment
- Friday, Saturday, Sunday, Monday (February 25, 26, 27, 28)
 - 2 members working 09:00 – 21:00 hours
 - 2 members working 12:00 – 24:00 hours
- Tuesday, March 1, 2022 – return travel

Please seek approval/releasability from your supervisor, and respond either way regarding your availability. First come first serve.

Please also respond with your class of DL (Class 1 required) – same must be valid.

Thank you,
Matt - DEOC

Subject: Coutts/Lethbridge VRT Departure (Mar 1) - Update

Mar 1

Hello Staff,

Just a quick update for your information/reporting:

- All 4 remaining tow vehicles pre-positioned at the Coutts scales were fueled and returned to the Lethbridge GofA yard on 2022-02-28 @ 1500 hrs;
- All keys – including duplicates – along with ARI fuel cards and vehicle registrations were

provided to Sheriff **Personal**. There was one surplus ARI card that was initially provided to members, however, this card was inadvertently transferred to Rick yesterday with vehicle keys. Short story: he will be dropping off this remaining fuel card (with receipts) to Cpl. Rylee Guckert at Coaldale who will mail it to DEOC for post-audit processing;

- VRT members assisted with the unloading of the chained-down loader on the gooseneck trailer attached to the Peterbilt tractor in order to confirm 'road-ability' for CVIP transport purposes;
- A private mechanical contractor was on-site to commence the transfer of vehicles to a shop for the purposes of CVIP inspection/repair;
- I cleaned out the Welcome Centre (Holiday Inn Express) and walked through the room with the hotel manager in order to officially close out our residency by Cpl. Jean Nault and his staff; and
- All Class 1/3 operators are alive to the potential that the request from DEOC regarding future deployments *may* come tomorrow, next week, next month or next year.

Lastly, thank you for allowing the opportunity to lead the 3rd VRT phase and GD roving patrol members as Bronze Command. I immensely enjoying with all of the deployed members but specifically yourself, Harms, Gord, Lee and Morty!

Regards,

Farid

Subject: FW: EDP Claims for Coutts

Kim and Mike,

Hey, thanks for coming out the other day and helping us out here at Claresholm. As Kim is aware, her OT was sent back to her because they were not ready to process it and as suspected they wanted to send out some guidelines for those claiming OT under the Coutts Protest Collator. With that said, today I received the attached email with OT instructions. I previously reached out to DEOC to see if you 2 could just submit your OT because you are in a different boat than most others that were at Coutts for days on end.....but I have yet to receive a call back or answer. You may wish to just follow these instructions and submit your OT....will only take you a moment. Let me know if any questions or concerns. If I hear that its not required for you 2 I'll let you know but I am not holding out hope for that.

Subject: FW: EDP Claims for Coutts

Good Afternoon Everyone,

We have just sent out the overtime instructions to everyone directly that we had on our nominal role. It was 546 employees.

There may be some members that were missed and I would ask that you send this to your units so they have the instructions on how to submit EDP claims.

Thank you everyone for assistance with this.

James

Subject: EDP Claims for Coutts

Good Afternoon Everyone,

First we want to thank everyone for your patience on submitting your overtime for the Coutts Deployment. We know there were frustrations from the membership, and appreciate your concerns.

As this event was unique and the first time we have deployed a large number of members within a new collective agreement, we needed clarification from CMB on how best to ensure that your claims were inputted correctly. Unlike other major events where the shift schedule and OT are entered by a central group, we did not have this ability for this event. In order to ensure that your claims were being processed correctly, and for you to not encounter any delays or pay claw back, things that we have seen occur during other large deployments, we wanted to make sure that it was right the first time.

Although this event was declared as a Exceptional Circumstances, for the purpose of this deployment members are use their home unit schedule as the basis to determine any overtime and EDP claims.

Attached is a time sheet and instructions on how to submit your claim. We ask that you follow the instructions to make this as smooth as possible. Comments are needed on the time sheet and can be cut and pasted into the EDP claim.

All claims will be processed promptly, but as there are a high volume of claims there may be some minor delays, but please know we will process them as fast as we can.

We are asking that all claims be submitted no latter than April 15^{t.h}.

We appreciate your patience and understanding.

We have made all attempts to send this to everyone involved directly, but if we have missed someone, please forward this to them directly.

Thank you for all of the hard work you have done.

Subject: RE: GoA equipment/vehicle management- equipment update

Hello;

I just want to update everyone on the location of the vehicles.

The following vehicles are located in the government compound and I have the keys in my possession.

1996	GMC	3500	1GDKC34F3TJ505699
2010	Dodge	Ram 2500	3D6WG4EL9AG114361
2007	Freightliner	M2	1FVACYDJ26HV42311 Flat deck Dozer Front End Loader

The following vehicles are located at Fleet Brake 4005 9 Avenue North. We have access to the yard at Fleet Brake 24/7 and Branch Manager, Personal will ensure if the vehicles are needed the keys will be provided. He will either come down personally or hide the keys for the vehicles. If the need arises for the vehicles, please call me and I will set this up Pers and meet people at the compound with keys for those units.

These vehicles have been inspected and we are waiting on estimates for some of the repairs that are required. These vehicles have been put back together and are in the yard in case they are needed. I have asked Pers to only work on one unit at a time; the exception is the large white wrecker which I have asked Personal to ensure it starts (there was a problem last week) but not take it apart yet.

2002 International 4300 1HTMMAAM62H547696

1998 Freightliner Classic 1FUPDDYB5WP945857 – White Wrecker just transferred today as would not start last week.
2014 International Pro Star day cab 3HSDL5MR5EN495783
2007 Gerry's 16 wheel lowboy 2K9LB457X7L052038
2010 Arne's Scissor Neck 2A9125231AA003504
2008 Western Star Winch Tractor 5KKPALAV58PAB5651
2006 Peterbilt Winch Tractor 1XPFD80X66D658297

Once the CVIP Inspections have been completed I will shuttle the vehicles back to the compound for safe keeping. I will then retain the keys for those units.

I can be reached on my cell at [Personal Info.] anytime.

[Perso.]

Good morning all;

Just wanted to give a heads up on the commercial inspection timeline. Fleet Brake has taken the four units identified below, underlined and in red, all others identified in red will be

inspected following their completion.

I will update everyone as we go along. There is an understanding that should the need arise, the trucks and trailers will be available on short notice.

- o 2007 Freightliner M2, Flat bed – No CVIP required at this time
- o 2010 Dodge Ram 3500 Tow Truck – No CVIP required
- o 2002 International 4300 Medium Tow Truck – CVIP required to fulfill Out of Province requirements – I may drop these off today as they appear to be in fair condition which would allow for a quick turnaround.
- o 1996 GMC 3500 Tow Truck – No CVIP required
- o 1998 Freightliner Classic, Heavy Tow Truck – CVIP required by end of the month (March)
- o 2010 Komatsu D61 Dozer with winch – N/A
- o 1999 Case 621B Wheel Loader- N/A
- o 2010 Arnes Tri-Axle Scissor Neck Lowboy – **Currently at Fleet Brake estimate sent to ARI for approval, some repairs required**
- o 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer – CVIP required – Currently at Fleet Brake CVIP has not been started but may start the inspection today
- o 2008 Western Star Semi Tractor – CVIP required – Currently at Fleet Brake CVIP has not been started but may start inspecting today
- o 2006 Peterbilt Semi Tractor – **Currently at Fleet Brake – Major repairs needed. anticipate an estimate today. Will review with management prior to go ahead**
- o 2014 International Prostar Semi Tractor – CVIP required

Good day Perso [REDACTED]

No troubles at all – We have not used the equipment since initially parked on March 1st. I must admit it is comforting knowing that it is there. Currently there is approx. 12 to 20 protestors still at the legal site near Milk River with various sizes of vehicles that we are monitoring and dealing with. We have been encouraging them to ship out but to no avail. At this point, we continue to encourage them to leave. It would not surprise me if we have to take a more stern approach and I would say there is still a slight chance we may need some of the tow equipment. I have spoken to one of the bosses on this end and we are confident that if we need to deploy the equipment it would be before the end of the month.

Robert;

Just to keep you in the loop

All but one vehicle is now at Fleet Brake; those trucks don't like this cold weather apparently. Perso [REDACTED] and I spent a few hours this AM trying to get them started.

Anyways the big white tow truck is still in the compound and won't start. Seems to be having some battery and starter issues. The Fleet Brake tech will be waiting until it warms up on Monday to try that one again.

We are hoping for a quick turn around on some of the inspections, so the vehicles can be returned to the yard should the need arise to use them.

Perso [REDACTED]

Good morning all;

Just wanted to give a heads up on the commercial inspection timeline. Fleet Brake has taken the four units identified below, underlined and in red, all others identified in red will be inspected following their completion.

I will update everyone as we go along. There is an understanding that should the need arise, the trucks and trailers will be available on short notice.

- o 2007 Freightliner M2, Flat bed – No CVIP required at this time
- o 2010 Dodge Ram 3500 Tow Truck – No CVIP required
- o 2002 International 4300 Medium Tow Truck – CVIP required to fulfill Out of Province requirements – I may drop these off today as they appear to be in fair condition which would allow for a quick turnaround.
- o 1996 GMC 3500 Tow Truck – No CVIP required
- o 1998 Freightliner Classic, Heavy Tow Truck – CVIP required by end of the month (March)
- o 2010 Komatsu D61 Dozer with winch – N/A
- o 1999 Case 621B Wheel Loader- N/A
- o 2010 Arnes Tri-Axle Scissor Neck Lowboy – **Currently at Fleet Brake estimate sent to ARI for approval, some repairs required**
- o 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer – CVIP required – Currently at Fleet Brake CVIP has not been started but may start the inspection today
- o 2008 Western Star Semi Tractor – CVIP required – Currently at Fleet Brake CVIP has not been started but may start inspecting today
- o 2006 Peterbilt Semi Tractor – **Currently at Fleet Brake – Major repairs needed. anticipate an estimate today. Will review with management prior to go ahead**
- o 2014 International Prostar Semi Tractor – CVIP required

Good day Pers[REDACTED],

No troubles at all – We have not used the equipment since initially parked on March 1st. I must admit it is comforting knowing that it is there. Currently there is approx. 12 to 20 protestors still at the legal site near Milk River with various sizes of vehicles that we are monitoring and dealing with. We have been encouraging them to ship out but to no avail. At this point, we continue to encourage them to leave. It would not surprise me if we have to take a more stern approach and I would say there is still a slight chance we may need some of the tow equipment. I have spoken to one of the bosses on this end and we are confident that if we need to deploy the equipment it would be before the end of the month.

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border.

Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - 2007 Freightliner M2, Flat bed
 - 2010 Dodge Ram 3500 Tow Truck
 - 2002 International 4300 Medium Tow Truck
 - 1996 GMC 3500 Tow Truck
 - 1998 Freightliner Classic, Heavy Tow Truck
 - 2010 Komatsu D61 Dozer with winch
 - 1999 Case 621B Wheel Loader
 - 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - 2008 Western Star Semi Tractor

- 2006 Peterbilt Semi Tractor
 - 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is **Personal Info.** with Agriculture, mobile **Personal** **Info.**).
 - The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.
- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca **Irrelevant** **Info.**)

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the equipment will be required
 - Action Item: Transportation will provide support for Commercial Vehicle Inspections on or before March 1st (while there is a possibility of extending exemption requirements, this is not the preferred option)
- Medium Term (Next two / three months) consideration:
 - Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Kind regards,

Perso
nel

Good afternoon,

I just had a wonderful conversation with RCMP Sgt Rob Harms (CC'd). Thank you Lee and James for putting us in touch. Going forward I recommend Personal [REDACTED] (GoA Vehicle Safety Inspector) liaise/coordinate directly with Rob (RCMP) to complete all CVIPs when it is operationally feasible.

Our short term plan is to keep all equipment in Lethbridge until the end of March. We will then relocate everything to a secure government compound (location TBD).

Long range plan is to keep all equipment to the end of summer and make it available to the RCMP if/when required. How this will look or be activated, remains a work in progress.

Thanks all for your continued vigilance on this important matter.

Kind regards,

Perso [REDACTED]

Good Afternoon Perso,

I spoke with our member who has been overseeing the RCMP's Vehicle Removal Team over the last couple days. I've been advised that all of the equipment that was down in Coutts has, as of today, been moved back to the fenced GoA compound in Lethbridge and all keys have been turned over.

If any keys remain outstanding, please let me know.

Thank you,
Lee

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border.

Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - 2007 Freightliner M2, Flat bed
 - 2010 Dodge Ram 3500 Tow Truck
 - 2002 International 4300 Medium Tow Truck
 - 1996 GMC 3500 Tow Truck
 - 1998 Freightliner Classic, Heavy Tow Truck
 - 2010 Komatsu D61 Dozer with winch
 - 1999 Case 621B Wheel Loader
 - 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - 2008 Western Star Semi Tractor
 - 2006 Peterbilt Semi Tractor
 - 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is Personal Info. [REDACTED] with Agriculture, mobile Personal Info. [REDACTED]).
 - The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.
- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca) Irrelevant [REDACTED]

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the equipment will be required
 - Action Item: Transportation will provide support for Commercial Vehicle Inspections on or before March 1st (while there is a possibility of extending exemption requirements, this is not the preferred option)
- Medium Term (Next two / three months) consideration:
 - Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Good morning Per and Rob;

I am in Edmonton this week on course, Personal with the Sheriffs has been coordinating the CVIPs inspections. Personal is the contact at Fleet Brake in Lethbridge.

Thanks for your help getting the trucks and trailers inspected. I have attached a excel spreadsheet which identifies the vehicles, in red, that require inspections. I made the list last week so the locations were identified at that time.

According to Per one truck was picked up yesterday and another was to be picked up shortly after. The plan is to get all the vehicles inspected this week.

My cell number is Personal if you need to discuss anything. It may work best if to text and I can call you back on break. The other option is to call and leave a message and I will return your call on break.

Keeping you updated.

We're extending 6 unit permits until April 1st to buy some time. The ones that don't need CVIPs will lapse.

Below is the process for getting CVIPs started as of next week.

Person [REDACTED]

I will be on course next week in Edmonton.

Personal [REDACTED] from Fleet Brake, will start picking up the trucks and trailers Monday February 28, 2022 to start the CVIP inspections. Personal [REDACTED] has agreed to meet with Perso [REDACTED] on Monday morning to discuss getting into the compound to retrieve the trucks and trailers.

I have touched base with Personal Info. [REDACTED] SHP as he apparently knows where the keys are? I will figure it out

I will update you throughout the week with the results of the inspections.

Hello,

Our contact in Lethbridge is Personal Info., Vehicle Safety Investigator.

He is going to confirm which units need inspections and will assist in locating a facility, and can book and take the vehicles for inspection if needed. He'll get us the list before weeks end so we know what we're looking at.

Thanks,
w.

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border.

Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the

following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - 2007 Freightliner M2, Flat bed
 - 2010 Dodge Ram 3500 Tow Truck
 - 2002 International 4300 Medium Tow Truck
 - 1996 GMC 3500 Tow Truck
 - 1998 Freightliner Classic, Heavy Tow Truck
 - 2010 Komatsu D61 Dozer with winch
 - 1999 Case 621B Wheel Loader
 - 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - 2008 Western Star Semi Tractor
 - 2006 Peterbilt Semi Tractor
 - 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is **Personal Info.** with Agriculture, mobile **Personal Info.**).
 - The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.
- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca **Irrelevant**)

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the equipment will be required
 - Action Item: Transportation will provide support for Commercial Vehicle Inspections on or before March 1st (while there is a possibility of extending exemption requirements, this is not the preferred option)

- Medium Term (Next two / three months) consideration:
 - Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Kind regards,

Perso

Date: February 22, 2022 1:32:12 PM

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Subject: RE: JOINING INSTRUCTIONS - ORT

We are scaling back resources. It has been decided that we don't need to bring in another NCO for the VRT. With that said, S/Sgt. MORTON is not required. The plan is that I will leave Friday. Of the 4 drivers and 1 support (ORT van) members coming, 1 of them is Sgt. Farid SIDDIQUI. He has agreed to take on the NCO duties of the team and can drive/tow if needed. This is easily done as all our tasks are caught up and there is very little on the go. If any questions about that let me know.

On a side note, because I have been CC'd all the Joining Instructions, I show the following members coming up for the next set:

1. Chris KIRBY.
2. Rylee GUCKERT
3. Holly LEFRANCIOUS
4. Farid SIDDIQUI (Sgt and NCO of the team).
5. Curtis Harjulla (ORT van support).

Can you please confirm the above persons for me?

Subject: RE: JOINING INSTRUCTIONS - ORT

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend
- I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours
- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Hi Rob,

Before we continue with the next rotation of members on stand by, we will need something in writing from the gold command that we are still requiring the towing members to be on standby. The numbers of members down in Coutts is only 5.

As there is no need for towing currently, it is time to put this into a maintenance plan and not staff this.

I would suggest we look at having the call out list of members that are qualified and able to use this equipment. We know if there is a blockade again we will need to mobilize members to deal with everything prior to the removal of vehicles, so without those resources in place, do we need to have 5 members down there?

Please check with district on their plans going forward with this and their wishes before we start moving people.

Thanks, James

Subject: RE: JOINING INSTRUCTIONS - ORT

We are scaling back resources. It has been decided that we don't need to bring in another NCO for the VRT. With that said, S/Sgt. MORTON is not required. The plan is that I will leave Friday. Of the 4 drivers and 1 support (ORT van) members coming, 1 of them is Sgt. Farid SIDDIQUI. He has agreed to take on the NCO duties of the team and can drive/tow if needed. This is easily done as all our tasks are caught up and there is very little on the go. If any questions about that let me know.

On a side note, because I have been CC'd all the Joining Instructions, I show the following members coming up for the next set:

1. Chris KIRBY.
2. Rylee GUCKERT
3. Holly LEFRANCIOUS

4. Farid SIDDIQUI (Sgt and NCO of the team).
5. Curtis Harjulla (ORT van support).

Can you please confirm the above persons for me?

Subject: Object removal team member

Good evening,

Insp. Brachmann has asked for a replacement for the “Object removal team” for this weekend
- I’m that told you’re my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours
- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Hi Alex,

Regarding the light plants, I located all 3; they are being used at the secure parking area for PCs at the hotels. I would suggest leaving them in place until we decommission that parking area – which needs to be reviewed I would assume soon if we are spooling down. Silver Commander, S/Sgt. Gord YETMAN is CC'd.

I have no involvement with the PCs but tabled this with S/Sgt. YETMAN and Cpl. Murray GORDON – they will look at this tomorrow.

Sgt. Harms as per our discussion,

- 1) We have 3 Light plants rented from United Rentals. One is at the Fairfield lot. The other two are at the other hotels?
Just wanting to confirm if we still need them? Also, when we have a demobilized date, please advise KDEOC so we can contact United Rentals to pick them up.
- 2) PC's loaned out by Post Garage and Red Deer:
 - 2 are being picked up by Meadowlark Towing, hopefully tomorrow, due to mechanical issues.

- 3 are outstanding. Again wanting to ensure they are returned when we are demobilized. Cpl. Jean Nault may be able to drive one back to Post Garage. Believe 2 are from Red Deer Detachment.

I will confirm from post garage which Unit numbers these vehicles are , hopefully to make things easier to track.

Let me know if you have any questions.

Morning Jean, that may have worked to our advantage.

B108 / B102 (mechanical issues) / B101 definitely needs to be returned to post garage.

But we also have SU102 - can be returned to Sundre detachment and WC209 - can be returned to Wetaskiwin detachment.

Sgt. Harms, do we have members that can take these unit's to their home detachments ?? Or Eric can these units be transported by Meadowlark?

We also have CC102 / CC103 Coaldale Detachment and 2 admin vehicles which I believe are SAD assets??

Just want to make sure all these vehicles make it home.

Subject: RE: PC's in Lethbridge

After talking to S/Sgt YETMAN, Cpl. GORDON, and the D.O., I believe the plan is for our members (Coutts operation) to move the loaner PCs to coaldale since we no longer have day time security at the secure parking lot. From there, the loaner cars to be picked up by Meadowlark and delivered to their home units. Not sure if Meadowlark has yet been tasked. With all that said I have Ccd this to S/Sgt YETMAN and Cpl. GORDON for confirmation.

Good morning,

Thank you for the prompt response. We will have direction in submitting your expense claim regarding the mileage in the next few days. We are clarifying a few details. If you would like to submit your expense claim absent of the personal mileage we can certainly get that process moving forward.

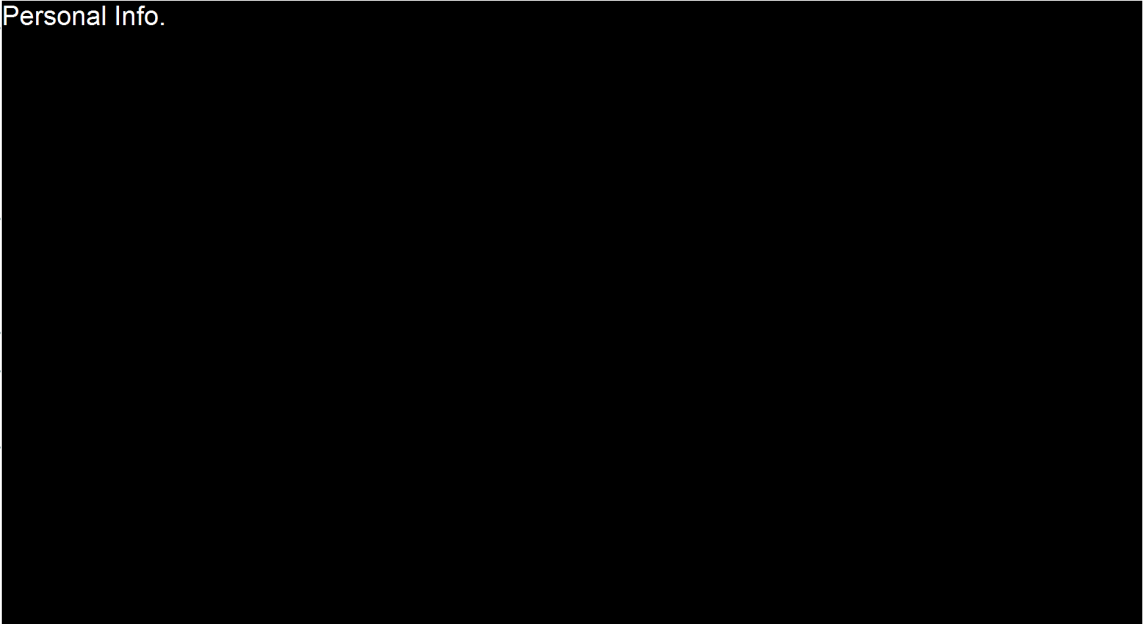

Stay well,
Mike DEOC

Date: February 22, 2022 4:12:14 PM

Afternoon DEOC,

Person from Willie's Towing called me today. He confirmed the 3 pieces of equipment were moved from his impound lot yesterday (2022/02/21). He also asked who he could contact about billing. The daily rate is noted in the message below. If someone can please contact him about this, it would be appreciated.

Thank you,
Lee

Subject: Relocation and Impound of 3 Seized Vehicles

Good Afternoon DEOC,

I wanted to provide an update on the movement of the three seized vehicles, as we need to relocate them from Ken Hauck Towing in Redcliff today. I am aware that DEOC is working on a longer term solution within the Government of Canada. However, in the interest of time, with today being a Friday, I have arranged for the equipment to be moved to the following location:

Willie's 24 Hr Towing Ltd.
1248 Brier Park Way,
Medicine Hat, AB
403-548-2002

I spoke with **Pers** today and he agreed to the same monthly rate as the previous company, which is \$5,500 per month for all three pieces. Given that the equipment may not be there for a month, I spoke with **Pers** about a daily rate and he agreed to \$180/day for all three pieces, which works out to about the same as the monthly rate (assuming my math was correct). Can you please have procurement follow up with him?

Aaron: all three items will now be at the above noted location for the time being until a permanent location is arranged.

If you have any questions, please let me know.

Thank you,
Lee

Date: February 21, 2022 8:15:19 AM

Hi Rob,

Im guessing you are taking over from S/Sgt Morton on the vehicle towing side?

Airports are not something we are going to want to store a vehicle. The last thing we want is a vehicle being driven through a fence at a airport if someone tries to take back their vehicle. If we seize the vehicle we need to ensure it is stored in a safe location. The airport will not take this on.

As the vehicle towing plan was to ensure there is a safe location to store these, is this something you are continuing? There was talk of storing it at CPS or EPS's storage facility. Do you know if this was followed up on? If there was a no I would suggest we reach out to **Personal Info.** with the Province to see if they have a location.

Feel free to give me a call.

Thanks, James

Subject: Seized vehicles - Willy's Towing

Hi folks,

I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

Hi Rob,

This is a follow up to the conversation we had.

CPS was mentioned that these could be stored at a facility they have (I am guessing their Tac facility off 64th street). Can you please see about temporary moving these to CPS. There was discussion they would not take them for long term, but this will buy us some time to find a long term location.

Second – can we check with the investigative team about the long term plan with these trucks. If their plan is to turn them over to SPMD, when will this be done. SPMD looks after all of the costs for storage and will find a place for them to go.

If there is no plan for SPMD then we need to know here:

- What are you looking for the storage of these trucks (indoor, outdoor, fenced, barb wire, gated, security etc)
- What is the size you are needing
- How long are you looking for storage
- Where do you want them stored (city)
- Do you anticipate needing more space for future seizures.

Once we know this we can reach out to leasing unit to find a suitable place.

If you have any questions, please let me know.

Thanks, James

Subject: Update - Towing Equipment Location

CAUTION: This email has been sent from an external source. Treat hyperlinks and attachments in this email with care.

Rob,

As an FYI, the team had trouble starting one of the trucks today, so they've secured permission from CVSA to park the trucks inside the shop at the Coutts weigh scales. The GMC 3500 light tow truck (gas engine) will be parked outside the door and will be plugged in. There will be a total of 4 trucks there; 3 inside and 1 outside. I've asked the GD Sub-Bronze to task the night shift members to make patrols of the weigh scales tonight. Apologies for the confusion. I'm not going to update the meeting location or time for tomorrow; the team can still start in Lethbridge at 10:00 as planned.

Also, GD is sending a member to return one of the diesel powered light standards to the Provincial Stockpile in Aldersyde today and another tomorrow. That will leave two remaining to take back. They require a 2 inch hitch receiver.

The updated equipment list is attached.

Jason: Updated equipment location, for your info.

Good afternoon Rob,

Thanks for your patience with this. We are just starting to get back to normal operations at this point.

I have attached the list for what I have for Class 1, VRT and ORT, including yourself. It is possible that I am missing some, but have not found them in our records yet.

Insp. Brachmann, S/Sgt. Morton and Sgt. Siddiqui may know of others that I have missed as well.

Thanks again for everything,

Justin

Subject: Vehicle Removal Team Resourcing

Morning DEOC,

While determining resources for the Vehicle Removal Team down in Coutts, I was advised that [redacted] was going to attend next week as one of the Class 1 operators. It seems there was a misunderstanding and the Sheriffs thought the deployment was canceled. As such, we're now going to be down to 3 Class 1 drivers next week instead of 4.

Can you please source one more Class 1 driver? Unfortunately, the member miss the Sunday training day but if they could be here by Monday, that would suffice.

Please give me a call if you have any questions or concerns.

Thanks,
Lee

Subject: VRT Backup Plan

Gents,

I'm looping you all in on this given your involvement as Commanders with the Coutts VRT. S/Sgt ZANIDEAN requested a backup plan with VRT should protestors try to take the roads back near Coutts or any other area. Attached is a brief plan called "VRT Operational Backup Plan". It is only version 1 and I am waiting for additional information from DEOC including other VRT members and contact numbers but wanted to push this out today so we have at least something should something

develop in the near future. Also included is the latest version of the original Ops Plan and maps which cannot be ignored should we re-deploy. Basically, the biggest thing we need should another deployment be required is information about where the Tow Trucks are, how to get them, and who and how to activate team members. I think the document captures that for the most part. The key is to activate members that have already served on the VRT team as they are experienced with the equipment. If anyone sees any issues with the document or has anything they want to add let me know.

If it should be sent to someone else as well, please do so and let me know.

On a side note, it was great working with all of you and hope to see you all soon.

Hi Rob,

It looks like the Command Post is moving to Raymond on Monday. With that in mind, I'll talk to James and we can have the equipment brought back to the GoA lot in Lethbridge tomorrow afternoon (the address is on the excel document I sent). Then, the new crew can start in Lethbridge on Monday. Depending on the direction of Silver, you may want to base the team out of Lethbridge. I'm also told there's a vacant lot across from Raymond Detachment you may want to consider as a staging area, if you end up staging there.

Subject: RE: VRT Equipment
Date: March 2, 2022 2:57:27 PM

Rob, thanks for this update!

Here is a quick and dirty list of the tow operators that I crossed paths with from my WhatsApp group contacts as per your request:

Name	Posting	Phone #
Sgt Farid SIDDIQUI	IBET Calgary	Irrelevant
Cpl Holly LeFrancois	Hinton GD/GIS	
Cst Chris Kirby	Redcliff Traffic	
Cpl Rylee Guckert	Coaldale Traffic Recon	
Sgt Brandon Humbke	Edmonton GIS	
Sheriff Glenn Munden	Stettler Scales	
Cst Ben Stubbe	Fort MacLeod GD	
Cst Jason LaGrange	CAD Traffic	
Cpl Kevin Nicholls	Elk Point Traffic	
Cpl Gary LeBlanc	Fort McMurray Traffic	

There are the other Class 1/3 operators that worked the shift prior to last week (with you) so I don't have their names, unfortunately. Cst Dwayne Pardy was one of those guys.

The other invaluable resources that I would keep on speed-dial for any future deployment considerations are:

S/Sgt James Morton – EAD Danco – Irrelevant
Cpl Curtis Harsulla – St-Albert Traffic/STO (ORT) – Irrelevant
Civilian SME Joe Kauzulin (Edm Transit) – Irrelevant

Regards,

Farid

Subject: VRT Equipment

Gents,

In followup to our meeting today and considering that we may have to utilize the tow equipment again, here is some noteworthy points specific to the Tow Equipment:

I had a long phone conversation with **Personal Info.** on Monday. Long story short is there was a big question mark, on their end, what they should do with the tow equipment. The tow equipment was bought specifically for us and the Coutts Border issue which appears to be done now. Further to that, the trucks were exempt from CVIPs under an Emergency Clause which expired March 1 meaning that most of the equipment is now subject to a CVIP inspection before being used again. Further to this, they were looking at moving the trucks to an Edmonton facility.

After discussions, the following decisions have been made:

1. The tow equipment will remain in the GOA yard till the end of March and is there for us to use if the need arises again. It is noteworthy that the GOA yard does not have any security elements in place other than a fence and the odd worker attending the yard.
2. GOA will have each truck certified under the CVIP program but will only do one truck at a time. GOA will converse with me regarding progress and issues. This started yesterday.
3. The tow trucks will be moved to the GOA Edmonton facility at the end of March; this is a secure indoor facility. RCMP will still have access to the vehicles if needed.
4. GOA has agreed to hang onto the trucks till the end of summer at which time they will re-visit the need to keep them.
5. The C.O. has been given an agreement to sign regarding liability when using the trucks.

Further to this, I have spoken to DEOC and tasked them to build a list of Tow members that served time on the VRT team (trained with the equipment). The list will contain names, phone numbers, and geographical location of the members and serve as a list that can be accessed should quick deployment of the tow equipment and operators be needed.

Subject: Resourcing Coutts Protest
Date: February 23, 2022 9:21:02 AM

***** Forwarded on behalf of Insp. Dave Brunner *****

Everyone,

I am writing this note to thank everyone for showing initiative in assisting in completing the resourcing mandate for Coutts. It was because of all your dedication that we could meet the challenges and some times short deadlines of finding resources for DEOC. It required everyone at the detachment doing "whatever it takes" to get this done.

Your ongoing support during the Coutts Protest has been exceptional and I cannot express all my gratitude. Thank you and all your staff for once again being there for the RCMP and the people of Alberta when it was needed the most.

Subject: Update - Towing Equipment Location
Date: February 20, 2022 1:27:07 PM
Attachments: [VRT Equipment List week of 20220221.xlsx](#)

Rob,

As an FYI, the team had trouble starting one of the trucks today, so they've secured permission from CVSA to park the trucks inside the shop at the Coutts weigh scales. The GMC 3500 light tow truck (gas engine) will be parked outside the door and will be plugged in. There will be a total of 4 trucks there; 3 inside and 1 outside. I've asked the GD Sub-Bronze to task the night shift members to make patrols of the weigh scales tonight. Apologies for the confusion. I'm not going to update the meeting location or time for tomorrow; the team can still start in Lethbridge at 10:00 as planned.

Also, GD is sending a member to return one of the diesel powered light standards to the Provincial Stockpile in Aldersyde today and another tomorrow. That will leave two remaining to take back. They require a 2 inch hitch receiver.

The updated equipment list is attached.

Jason: Updated equipment location, for your info.

Subject: Updated Information - Vehicle Removal Team
Date: February 19, 2022 4:51:16 PM

Morning Everyone,

I tried to get in touch with all of you today and left messages for most of you. As I couldn't reach all of you, I figured I'd send you all an email. This is a reminder that shift will start at **10:00 hours** tomorrow, **February 20, 2022** at the Coutts weigh scales. Starting Monday, shifts will likely start in Lethbridge as the equipment is being moved there tomorrow. The Bronze Commander for the Vehicle Removal Team next week will be Sgt. Rob Harms, starting Monday. The team for next week is listed below.

- Cst. Dalton Rouse
- Cst. Dwayne Pardy
- Cst. Roman Baril
- **Personal Info.**
- Cst. Matthew Wiese (Object Removal Team – associated to VRT)

Scheduling for the week will be as follows:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 10:00 – 22:00 hours

Friday, February 25, 2022 – return travel

Each day, one team of two members may be placed on-call (OR) in the event tactical towing is required after hours.

If you have any questions, please give me a call.

Subject: Updated VRT Plan and Pass-On Notes for Next Week
Date: February 19, 2022 5:13:49 PM
Attachments: [Updated Plan Vehicle Removal Team 20220220 to 20220224 updated 20220219.....docx](#)
[VRT Equipment List week of 20220221.xlsx](#)

Rob,

Attached is the updated VRT plan for next week. The only update is that I've moved both teams to start at the same time and work 10:00 – 22:00 hours. This will coincide with next week's shift start time. The other addition is the consideration of placing one team of two members on-call from 22:00 – 10:00 hours in the event a tactical tow is required after hours. As we're moving all equipment to Lethbridge tomorrow, I've updated the equipment list with what we'll have next week and the location of that equipment.

Here's some pass-on notes for next week:

- The Command Post is moving to Raymond starting Monday. We'll get all the equipment moved to the GoA lot in Lethbridge noted on the excel doc.
- There is still a GoA-owned truck and trailer at Willie's Towing in Medicine Hat with three exhibits (one gravel truck, one semi tractor, and one Versatile tractor). There may be a need to move all three next week to another location, which is why the team left it on the truck and trailer yesterday.
- The contact for all GoA equipment is **Personal Info.** The GoA just asked that we keep him updated as to where the equipment is. I tried calling him today to let him know about the truck and trailer but he wasn't answering.
- There are four lights that need to be towed back to Aldersyde when we no longer need them. They require a 2 inch ball hitch. I am working with GD to try to get them moved back there tomorrow. If I'm unsuccessful with that, I'd ask you to follow up with that. They are currently stored in the same GoA lot in Lethbridge as the heavy equipment.

I'm AOL next week but I'm not going too far. If you need to get hold of me for anything, please don't hesitate to call me: **Irrelevant**. If I don't answer, you can also try my personal cell: **Irrelevant**.

Thanks,
Lee

Date: February 19, 2022 9:01:09 PM

Morning DEOC,

While determining resources for the Vehicle Removal Team down in Coutts, I was advised that **Personal Info.** was going to attend next week as one of the Class 1 operators. It seems there was a misunderstanding and the Sheriffs thought the deployment was canceled. As such, we're now going to be down to 3 Class 1 drivers next week instead of 4.

Can you please source one more Class 1 driver? Unfortunately, the member miss the Sunday training day but if they could be here by Monday, that would suffice.

Please give me a call if you have any questions or concerns.

Thanks,
Lee

Subject: VRT Plan Next Week
Date: February 18, 2022 4:07:53 PM

Gents,

In looking at future planning for the Coutts deployment, I had a resource meeting with DEOC, Tim Kelly, and a few others today to go over resources moving forward. At this time, the plan is to cut back Vehicle Recovery Team operators by 50% starting Monday. This means that, as of Monday, we'll have 2 teams of 2 operators. We can still run shifts with one working 09:00 – 21:00 and the other working 12:00 – 24:00. The new crew will arrive Sunday for a crossover shift with the current crew. They will then work Monday, Tuesday, Wednesday. Before then, a new shift will need to be identified, if required.

There are plans in place for a new Bronze Commander to relieve us as well. Sgt. Rob Harms has been identified to run the VRT next week. He is familiar with heavy equipment as well, which is nice. Rob will start Monday. I'd like to have a conference call with him as a group tomorrow at 10:00 to do a bit of a handover.

Tomorrow is Chris's last day and Morty, you and I will be done on Sunday afternoon.

Any questions, please let me know.

Subject: Alex Van Herk - Warrants

Folks,

File 2021528239 refers

As some of you are aware we have a warrant for arrest (attached) for Alex Van Herk (photo attached) that was issued by Parkland RCMP (Spruce Grove, AB). Ben and Liam attended the Alex Van Herk residence (81052 RR 252) as well as his business Durango Livestock (252021 Hwy 511) today however he was not located. His family members and coworkers indicated he was not there however it is my belief they will be trying to hide him from us. The adults at the residence and at Durango Livestock were all pretty sketchy and were taking video of us as we were leaving the property.

When I spoke with Alex on the phone Tuesday he stated he would not turn himself in to police and that we would need to bring a "big army" when we did find him.

Alex is a big anti-vaccination and anti mask advocate as well as other government tyranny ideology. These charges (Mischief and Obstruct PO) stem from a protest that he attended this past summer. Alex's Facebook page is riddled with anti government and anti vaccination / masking posts.

Information is that Alex has about 10 or so people who strongly support him and may defend him or obstruct police should we attempt to arrest him. We do not know exactly how Alex or his support people will react if confronted.

I have also attached the Appearance Notice that we were going to release him with in case we are dealing with him in the near future.

We will discuss further with SAD CRU and try to figure out how we might track Alex down away from his residence or business.

FYI.

Date: February 24, 2022 3:56:00 PM

Hey team,

Just an FYI - I am thinking that this is unrelated to our Coutts investigations, but want to make you aware as I am not aware of everything your team is working on and I know that we dealt with pipe bombs on the Olienick file . As most are aware, the Command Post was recently moved to Raymond Det. This afternoon, I learned that Raymond Det is investigating a Break and Enter to the Fas Gas across the road from the detachment where a “bomb” was used on the ATM to access money. File is 2022232608 and lead is Cpl. Don Nelson whom advised me of the details. GR is on file, FIS attended. Once again, I see nothing to suggest this is related to protestors or Coutts investigations Sgt. Robert (Rob) HARMS

Subject: Conspiracy to Commit Murder - Anthony OLIENICK B: **Personal**
Date: February 17, 2022 3:08:00 PM

Good day folks,

****This email is not to be disseminated****

As you all know, I was deployed to the Coutts Border Protests for the last 2 weeks and have chosen to take this week off (kind of) to get some R&R and burn some leave time. With that said, I wanted to touch on the disturbing events and findings that occurred in Coutts that involved the discovery of an arsenal of weapons, ammo, body armour, and more and the arrests of multiple suspects including Anthony OLIENICK B: **Personal** whom is a local to Claresholm.

As we all know, OLIENICK, like the others, has been formally charged with Conspiracy to Commit Murder. I do not know all the details but can tell you that their plan was very very real, and their target was RCMP officers. This, combined with the weapons cache, knowing he is from Claresholm, and knowing that he has friends and family from this area, tells me that we must operate with heightened awareness. In addition to this, I can tell you that several of the protestors we dealt with that acted unlawfully where from the areas of Claresholm, Fort Macleod, and surrounding areas. I am also aware that we have had protestors and supporters attend our Nanton and Claresholm Detachments in the last couple weeks challenging us regarding police actions on protestors. All too often we get complacent and comfortable with our surroundings but I would suggest tightening up a little bit and ensuring you have that Situational Awareness / head on a swivel mentality – which you should anyway.

Early this morning, I engaged with the Coutts investigators to speak to them about properties that OLIENICK may have in the Claresholm area (thanks Dalyn) and if any actions are required in relation to those properties. Since then, Claresholm Det received 2 information files about OLIENICK and storage of firearms in this area. As a result, the investigation team is focusing some of their efforts in our area. Going forward, if anymore information files are received regarding OLIENICK, please start a file but do not take any actions – please advise me and we will forward these files for GIS to deal with.

If any questions, let me know.

Hi Aaron,

First of all, I want to say "Good Job" on all the work you and your team have been doing in Coutts; it was great to see you all there and great to see some of the results. Regarding OLIENICK, he is obviously facing some serious charges and I assume currently in jail; can you confirm that he is remanded? OLIENICK resides in the Claresholm area and has a business in Claresholm. I am the Commander for this area. Some of our members are getting suggestions from the public that OLIENICK has or likely has a stash of guns at his residence or maybe at his business. I'm not sure how solid the info is but am curious if your unit is addressing firearms of persons charged such as OLIENICK? Let me know.

Subject: Coutts OT Submissions Question
Date: March 4, 2022 4:46:00 PM

Hi,

I am one of the commanders that worked from start to finish at the Coutts protests. Today I reviewed your instructions for submitting OT and have questions. As well, people are phoning me asking same questions. Can some one call me on my cell or answer the following:

1. For the many of us that work Monday to Friday 8am to 4 pm, we changed our TEAM home schedule start time to reflect our actual start time in Coutts (work days only). For example, If I started at 5am I changed my home unit schedule start time from 8 am to 5 am so all the OT goes on the back end. From what I see there is no other way to do it. Will that be OK?
2. Missed Meals – If I read your instructions correctly, $\frac{3}{4}$ of an hour for missed meals applies when on a 12 hour shift at a rate of 1.5. I have played with TEAM and can only enter at a rate of 1.5 if I was on a work day. If on a RTO TEAM will only let me enter at a rate of 2.0. Is this correct?

Please let me know for my own sake and to help me address questions thrown my way.

Subject: RE: JOINING INSTRUCTIONS - ORT

Hi Rob,

Before we continue with the next rotation of members on stand by, we will need something in writing from the gold command that we are still requiring the towing members to be on standby. The numbers of members down in Coutts is only 5.

As there is no need for towing currently, it is time to put this into a maintenance plan and not staff this.

I would suggest we look at having the call out list of members that are qualified and able to use this equipment. We know if there is a blockade again we will need to mobilize members to deal with everything prior to the removal of vehicles, so without those resources in place, do we need to have 5 members down there?

Please check with district on their plans going forward with this and their wishes before we start moving people.

Thanks, James

Subject: RE: JOINING INSTRUCTIONS - ORT

We are scaling back resources. It has been decided that we don't need to bring in another NCO for the VRT. With that said, S/Sgt. MORTON is not required. The plan is that I will leave Friday. Of the 4 drivers and 1 support (ORT van) members coming, 1 of them is Sgt. Farid SIDDIQUI. He has agreed to take on the NCO duties of the team and can drive/tow if needed. This is easily done as all our tasks are caught up and there is very little on the go. If any questions about that let me know.

On a side note, because I have been CC'd all the Joining Instructions, I show the following members coming up for the next set:

1. Chris KIRBY.
2. Rylee GUCKERT
3. Holly LEFRANCIOUS
4. Farid SIDDIQUI (Sgt and NCO of the team).

5. Curtis Harjulla (ORT van support).

Can you please confirm the above persons for me?

Subject: FW: JOINING INSTRUCTIONS - ORT

Good morning Rob,

Just wondering if you would need S/Sgt. Morton to return, and when he might be needed?

Thanks,

Justin

Subject: RE: JOINING INSTRUCTIONS - ORT

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Subject: JOINING INSTRUCTIONS

Good Morning,

We need Joining Instructions for Matthew Wiese who will be working as a Class 1 driver Dayshift (09:00 – 21:00). Travel day will be on the 19th, Training / Crossover day on the 20th, Working 21st – 24th, and travelling home on the 25th.

Thanks,
Jess

Subject: Object removal team member

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend
- I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours

- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Hey, heads up, there may be some confusion with this email and the guys you have there.
This email states:

"The deployment will be for 4 day blocks with a travel day on each side"

I believe the guys you have there, including today, were told the last day of their block is travel day.....you and I discussed that. Henderson would be a good guy to confirm.

Subject: Alberta Border Blockade Protest SAD Resources

***** Forwarded on behalf of Insp. Dave Brunner, Cochrane Detachment *****

Good morning Everyone,

Moving forward this will be the resourcing requirements for SAD. Beginning on Wednesday February 9 SAD will be supplying 9 Members (4 dayshift and 5 nightshift) to support the Coutts Border Protest. Submit your members name, cell phone and shift preference, BUT there will be no guarantees so they will have to be prepared for both days or nights. Reply to Insp. Brunner who will coordinate with DEOC. Members will receive Joining Instructions via email.

The deployment will be for 4 day blocks with a travel day on each side. The first block will be:

- Wednesday February 9 (4 dayshift / 5 nightshift)

- Thursday February 10 (4 dayshift / 5 nightshift)
- Friday February 11 (4 dayshift / 5 nightshift)
- Saturday February 12 (4 dayshift / 5 nightshift)

With a travel day on each end.

Deployment for February 9 status:

Airdrie 2 members

Cochrane 2 members

This will be the rotation moving forward (ie 9 more Members would be starting shift on Sunday February 13). Please start planning now..... As always questions/concerns give me a call. Thx.

Subject: Authorities quick-reference document, re: convoys, problematic vehicles at muster points etc

*** Forwarded on behalf of S/Sgt. Kevin Charles, Acting Ops Support Officer, Southern Alberta District ***

Hello District Ops Officers and ADOs, and Traffic Services,

Based on best practices and lessons learned especially in CAD/Edmonton with slow roll convoys, attached is a quick-reference/summary document for members and supervisors.

This could be shared with members working on convoys etc, electronically and/or as a printed-off sheet.

Of course this document is only a supplement to briefings and ops plan direction, but was requested as an additional tool.

If you have any feedback or updates to suggest, please contact me with a CC to Insp. Moreland; we would make changes and re-share as applicable.

Thanks,

Andrew

Subject: Throne Speech convoys, best practices re: problematic vehicles at convoy muster points

Hello Districts and Traffic,

I am sending this to Ops Officers and ADOs, with CC to DOs, given the short timeline before Tuesday's Throne Speech. This message is based on info from Supt. Pam Robinson in CAD, re: best practices and lessons learned with convoys, and subsequent issues at the Legislature.

Context: per page 10 of the attached OSINT, there are calls for convoys from all over the province to be in front of the Legislature for noon on Tuesday, to disrupt the Throne Speech. Unknown how many convoys will form, but reason to believe some considerable convoys may form up in SAD, WAD, or EAD (in addition to the expected CAD convoys).

Bottom line up front: the key lesson learned/best practice is engaging with the convoys as they gather at their muster points, to discuss/inform/deter/dissuade (and take enforcement action if appropriate), *before* the convoy gets rolling.

This is focused on drivers with oversized loads, horse trailers, farm equipment (driving same or on a

trailer), strange loads (why are you bringing a load of lumber to the Legislature?), or other notable or problematic items.

The summary is to engage these drivers, discuss/inform them of the consequences should they misuse or off-load their items at the Legislature, and ideally deter/dissuade them.

Supt. Robinson reports several successes, having problematic trucks being left behind at the muster point. Conversely, they also had a horse trailer at the Legislature today, leading to a “Lone Ranger” rider being essentially chased around the streets of Edmonton. We likely would have had no authority to prevent this driver from bringing his horse to town, but perhaps he could have been informed/deterred/dissuaded at the muster point.

I realize these ideas are surely the intent and actions already being taken in each District, but recent events in CAD emphasize the value of same. Supt. Robinson can chime in with specifics as applicable. She also has specific information regarding overpasses, exits, etc.

This message is to add to your ongoing Ops planning in each District, as/when any specific convoys are identified in your areas. Presumably more intel and clarity will develop in the next 24-36 hours.

Thanks all,

Andrew
(at DEOC, Provincial Silver for the weekend)

Subject: Charges at Rallies and Demonstrations

***** Forwarded on behalf of S/Sgt. Kevin Charles, District Advisory NCO, Southern Alberta District *****

Commanders,

With the ongoing Freedom Rallies and Protests throughout the District, our Commanding Officer and District Officer would like to remind you that charges should be laid when and where appropriate, even if it is a Provincial ticket. Although charges are ultimately at the discretion of the attending member, and we will continue to support that discretion, members should be taking a stance where simple education and/or warnings are not sufficient or appropriate, given the overall public intolerance of these events.

Should you have any questions, please reach out to your DANCO.

Kevin

Hi Robert,

Thanks for the heads up on this, I appreciate the feed back. OLIENICK is in custody and hopefully will be for some time. It was our information that OLIENICK had sold his property and business to support this "cause". If that is not the case I would suggest that we look into writing a warrant for both of those locations. Would you be able to provide me some information if he still in fact has property in the area.

I have copied my command triangle and LAST member in on this email chain to get their heads wrapped around the possibility of obtaining the warrants.

Don't hesitate to reach out should you have any more info.

Thanks

Aaron

Subject: Conspiracy to Commit Murder - Anthony OLIENICK

Hi Aaron,

First of all, I want to say "Good Job" on all the work you and your team have been doing in Coutts; it was great to see you all there and great to see some of the results. Regarding OLIENICK, he is obviously facing some serious charges and I assume currently in jail; can you confirm that he is remanded? OLIENICK resides in the Claresholm area and has a business in Claresholm. I am the Commander for this area. Some of our members are getting suggestions from the public that OLIENICK has or likely has a stash of guns at his residence or maybe at his business. I'm not sure how solid the info is but am curious if your unit is addressing firearms of persons charged such as OLIENICK? Let me know.

Kim and Mike,

Hey, thanks for coming out the other day and helping us out here at Claresholm. As Kim is aware, her OT was sent back to her because they were not ready to process it and as suspected they wanted to send out some guidelines for those claiming OT under the Coutts Protest Collator. With that said, today I received the attached email with OT instructions. I previously reached out to DEOC to see if you 2 could just submit your OT because you are in a different boat than most others that were at Coutts for days on end.....but I have yet to receive a call back or answer. You may wish to just follow these instructions and submit your OT....will only take you a moment. Let me know if any questions or concerns. If I hear that its not required for you 2 I'll let you know but I am not holding out hope for that.

Good Afternoon Everyone,

We have just sent out the overtime instructions to everyone directly that we had on our nominal role. It was 546 employees.

There may be some members that were missed and I would ask that you send this to your units so they have the instructions on how to submit EDP claims.

Thank you everyone for assistance with this.

James

Subject: EDP Claims for Coutts

Good Afternoon Everyone,

First we want to thank everyone for your patience on submitting your overtime for the Coutts Deployment. We know there were frustrations from the membership, and appreciate your concerns.

As this event was unique and the first time we have deployed a large number of members within a

new collective agreement, we needed clarification from CMB on how best to ensure that your claims were inputted correctly. Unlike other major events where the shift schedule and OT are entered by a central group, we did not have this ability for this event. In order to ensure that your claims were being processed correctly, and for you to not encounter any delays or pay claw back, things that we have seen occur during other large deployments, we wanted to make sure that it was right the first time.

Although this event was declared as a Exceptional Circumstances, for the purpose of this deployment members are use their home unit schedule as the basis to determine any overtime and EDP claims.

Attached is a time sheet and instructions on how to submit your claim. We ask that you follow the instructions to make this as smooth as possible. Comments are needed on the time sheet and can be cut and pasted into the EDP claim.

All claims will be processed promptly, but as there are a high volume of claims there may be some minor delays, but please know we will process them as fast as we can.

We are asking that all claims be submitted no latter than April 15^{t.h}.

We appreciate your patience and understanding.

We have made all attempts to send this to everyone involved directly, but if we have missed someone, please forward this to them directly.

Thank you for all of the hard work you have done.

Subject: EDP Claims for Coutts

Good Afternoon Everyone,

First we want to thank everyone for your patience on submitting your overtime for the Coutts Deployment. We know there were frustrations from the membership, and appreciate your concerns.

As this event was unique and the first time we have deployed a large number of members within a new collective agreement, we needed clarification from CMB on how best to ensure that your claims were inputted correctly. Unlike other major events where the shift schedule and OT are entered by a central group, we did not have this ability for this event. In order to ensure that your claims were being processed correctly, and for you to not encounter any delays or pay claw back, things that we have seen occur during other large deployments, we wanted to make sure that it was right the first time.

Although this event was declared as a Exceptional Circumstances, for the purpose of this deployment members are use their home unit schedule as the basis to determine any overtime and EDP claims.

Attached is a time sheet and instructions on how to submit your claim. We ask that you follow the instructions to make this as smooth as possible. Comments are needed on the time sheet and can be cut and pasted into the EDP claim.

All claims will be processed promptly, but as there are a high volume of claims there may be some

minor delays, but please know we will process them as fast as we can.

We are asking that all claims be submitted no latter than April 15^{t.h}.

We appreciate your patience and understanding.

We have made all attempts to send this to everyone involved directly, but if we have missed someone, please forward this to them directly.

Thank you for all of the hard work you have done.

Hi Alex,

I hope all is well with you. If I am correct, you will be part of approving EDP claims for Coutts. As you are likely aware, I served there from start to finish, pretty much 1 month minus a few days to rest. Regarding EDP claims, can you answer the following:

1. My home schedule is set up for week days only which is 8am to 4pm. For all scheduled work days in coutts, and for ease, I changed the start time of all my work days to reflect the start time of my day and added the OT on the back end of each day. For example, if my day started at 05:00 hrs, I changed the start time of my scheduled day from 08:00 to 05:00 hrs. After 8 hours, I was in an OT situation. This was done for ease. Will this be OK? If not, please explain how I claim OT on the front end and the back end of a scheduled 8 hour day (not sure that I have done that before).

Also, please be aware that a Search Warrant unfolded in the Claresholm area that was directly related to the Coutts Protests and specifically the individuals charged with Conspiracy to Commit Murder. Multiple members were brought from Coutts to the property to work security and other tasks. I also deployed members from surrounding detachments for the same Op. I have been instructed to use the Coutts collator, I.O. number, and file number for all claims related to this – so please be aware that you will see those claims coming in including from Cst. Kim Shelby from High River and Cst. Mike STINSON from Okotoks (whom actually did not work shifts in Coutts).

To whom it may concern, this is a letter the Albertains have created and are expecting before the border is reopened at Coutts! Please let us know when we can reopen the boarder, thanks George Janzen

Coutts Border Rally

January 26, 2022

Honorable Jason Kenney
Premier of Alberta
307 Legislature Building
10800-97 Avenue
Edmonton, AB T5K 2B6

The people of Alberta have had enough. In the last 2 years we have seen the values and freedoms of Albertans washed away. Albertans have witnessed the gradual erosion of our democracy and at the same time witnessed our Provincial leadership's weakness in standing against the tyrannical leadership from the Federal government.

Albertans demand that you fulfill your responsibility as the elected leader of Alberta and stand up for Freedom. Better to stand for truth and freedom, than to cower like some other politicians. Albertans are not ill-willed people that seek the destruction of our society. On the contrary, Albertans are hardworking people and are simply trying to save our democracy.

Our seniors have suffered in the last 2 years, some could not even choose if they wanted to spend time with loved ones, but instead died alone. Our children cannot dare to dream about their future because every word they hear is about uncertainty. Albertans are done with leadership that keeps changing its mind on the issue of freedom, vaccine mandates are not an expression of freedom.

Albertans are done with the lies that keep coming from you and your Chief Medical Health Officer. Lies that the majority of hospitalizations come from the unvaccinated, but when based on the Alberta website we see the 65% have either two or three doses of the vaccine. Albertans hold you responsible for abandoning them. You were elected to serve the people of Alberta and to protect their constitutional freedoms. Why have you abandoned the freedoms of Albertans? You have rejected Albertans and people are dying because of it. This is not about a vaccine but the right to choose what is best for every individual based on the facts.

And so, we are resolved to protest against Covid mandates in all industries. The 2 weeks to flatten the curve that started this tyranny must end now. No more restrictions, and no more Covid mandates to force and coerce people. The Coutts border rally will end when you, Jason Kenney, make a public announcement that all Covid mandates be lifted indefinitely. **Take a stand for Freedom!!**

Sincerely,
Concerned citizens of Alberta

[REDACTED]@gov.ab.ca>; Personal Info. [REDACTED]@gov.ab.ca>
Subject: RE: GoA equipment/vehicle management- equipment update

Hello;

I just want to update everyone on the location of the vehicles.

The following vehicles are located in the government compound and I have the keys in my possession.

1996	GMC	3500	1GDKC34F3TJ505699
2010	Dodge	Ram 2500	3D6WG4EL9AG114361
2007	Freightliner	M2	1FVACYDJ26HV42311 Flat deck Dozer Front End Loader

The following vehicles are located at Fleet Brake 4005 9 Avenue North. We have access to the yard at Fleet Brake 24/7 and Branch Manager, Personal Info. [REDACTED], will ensure if the vehicles are needed the keys will be provided. He will either come down personally or hide the keys for the vehicles. If the need arises for the vehicles, please call me and I will set this up Personal Info. [REDACTED] and meet people at the compound with keys for those units.

These vehicles have been inspected and we are waiting on estimates for some of the repairs that are required. These vehicles have been put back together and are in the yard in case they are needed. I have asked Personal Info. [REDACTED] to only work on one unit at a time; the exception is the large white wrecker which I have asked Personal Info. [REDACTED] to ensure it starts (there was a problem last week) but not take it apart yet.

2002	International	4300	1HTMMAAM62H547696
1998	Freightliner	Classic	1FUPDDYB5WP945857 – White Wrecker just transferred today as would not start last week.
2014	International	Pro Star day cab	3HSDLSMR5EN495783

2007 Gerry's 16 wheel lowboy 2K9LB457X7L052038
2010 Arne's Scissor Neck 2A9125231AA003504
2008 Western Star Winch Tractor 5KKPALAV58PAB5651
2006 Peterbilt Winch Tractor 1XPFD0X66D658297

Once the CVIP Inspections have been completed I will shuttle the vehicles back to the compound for safe keeping. I will then retain the keys for those units.

I can be reached on my cell at **Personal** anytime.

Subject: RE: GoA equipment/vehicle management

Good morning all;

Just wanted to give a heads up on the commercial inspection timeline. Fleet Brake has taken the four units identified below, underlined and in red, all others identified in red will be inspected following their completion.

I will update everyone as we go along. There is an understanding that should the need arise, the trucks and trailers will be available on short notice.

- o 2007 Freightliner M2, Flat bed – No CVIP required at this time
- o 2010 Dodge Ram 3500 Tow Truck – No CVIP required
- o 2002 International 4300 Medium Tow Truck – CVIP required to fulfill Out of Province requirements – I may drop these off today as they appear to be in fair condition which would allow for a quick turnaround.
- o 1996 GMC 3500 Tow Truck – No CVIP required
- o 1998 Freightliner Classic, Heavy Tow Truck – CVIP required by end of the month (March)
- o 2010 Komatsu D61 Dozer with winch – N/A
- o 1999 Case 621B Wheel Loader- N/A
- o 2010 Arnes Tri-Axle Scissor Neck Lowboy – **Currently at Fleet Brake estimate sent to ARI for approval, some repairs required**
- o 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer – CVIP required – Currently at Fleet Brake CVIP has not been started but may start the inspection today
- o 2008 Western Star Semi Tractor – CVIP required – Currently at Fleet Brake CVIP has not been started but may start inspecting today
- o 2006 Peterbilt Semi Tractor – **Currently at Fleet Brake – Major repairs needed. anticipate an estimate today. Will review with management prior to go ahead**
- o 2014 International Prostar Semi Tractor – CVIP required

Good day Pers.,

No troubles at all – We have not used the equipment since initially parked on March 1st. I must admit it is comforting knowing that it is there. Currently there is approx. 12 to 20 protestors still at the legal site near Milk River with various sizes of vehicles that we are monitoring and dealing with. We have been encouraging them to ship out but to no avail. At this point, we continue to encourage them to leave. It would not surprise me if we have to take a more stern approach and I would say there is still a slight chance we may need some of the tow equipment. I have spoken to one of the bosses on this end and we are confident that if we need to deploy the equipment it would be before the end of the month.

Subject: Light Plants / Loaned PC's

Sgt. Harms as per our discussion,

- 1) We have 3 Light plants rented from United Rentals. One is at the Fairfield lot. The other two are at the other hotels?
Just wanting to confirm if we still need them? Also, when we have a demobilized date, please advise KDEOC so we can contact United Rentals to pick them up.
- 2) PC's loaned out by Post Garage and Red Deer:
 - 2 are being picked up by Meadowlark Towing , hopefully tomorrow, due to mechanical issues.
 - 3 are outstanding. Again wanting to ensure they are returned when we are demobilized. Cpl. Jean Nault may be able to drive one back to Post Garage. Believe 2 are from Red Deer Detachment.

I will confirm from post garage which Unit numbers these vehicles are , hopefully to make things easier to track.

Let me know if you have any questions.

FYI

From: Morton, James <james.d.morton@rcmp-grc.gc.ca>
Sent: February 23, 2022 1:50 PM
To: Stanviloff, James <james.stanviloff@rcmp-grc.gc.ca>
Cc: Brachmann, Lee <lee.r.brachmann@rcmp-grc.gc.ca>; Siddiqui, Farid <farid.siddiqui@rcmp-grc.gc.ca>; Harms, Robert <robert.harms@rcmp-grc.gc.ca>
Subject: Meeting with the Province

I was invited to a meeting with the Province with regards to the assets purchased for the towing/recovery of vehicles and equipment used during the protests.

Peter Lemieux called the meeting and the following persons were present:

Personal Info. [REDACTED] (AB Gov)
Personal Info. [REDACTED] (AB Gov)
Personal [REDACTED] (AB Gov)
Personal Info. [REDACTED] (AB Gov Sherrifs)

I was the only representative of the RCMP who was invited to this meeting (not really sure why):

Topics Discussed:

The items currently owned by the AB Gov. related to the vehicle towing strategy is **exempt from CVIP inspection until March 1, 2022**. I was advised that if required this exemption can be extended so they are looking for some feedback on what the usage looks like going forward.

With respect to the equipment being used I advised that all the equipment is currently being used "actively in standby" as there is nothing to remove but that may change at any time. We are maintaining the use/availability of the equipment at this time until a decision is made to further reduce capacity.

What will be done with the equipment (surplus, transfer to RCMP, storage, disposal)

- Keep on hand until the summer.
- Store and maintain.
- Can be used by RCMP (potentially an end user agreement). Looking at a short term agreement.

Ultimately there was some discussion about what/how this specific equipment and/or similar equipment might be beneficial in the future moving forward in various capacities. Ultimately I advised the group that I would pass along the above for the consideration of RCMP management in K-Division to determine what/who should be involved and responsible for the discussion and

decisions moving forward. I advised that it was not within my authorities to agree to anything that would result in liability or costs to the RCMP in Alberta but advised that I would be happy to assist however I can in supporting this process moving forward.

I note from my e-mail that I am not being asked to return to Lethbridge for the next deployment so I am forwarding this to you guys for your knowledge and consideration moving forward.

Let me know if there is anything else I can do.

Subject: Plates from blockade

Hi Robert,

Here are some of the plates we got last night. These were all south of the scale near the blockade where B&D Walters super B combination was blocking the highway north bound. We did not get plates from the southbound side (I believe that was another team).

Hi Zane.

I hope all is well with you and your team. As you are likely aware, your unit lent us a Taurus police car earlier last week as we were in dire need due to deployments to the Coutts border and break downs. I'm not clear on when or if a return date was discussed but was very much hoping hoping we could keep it a little longer for exact same reasons. Would that be ok with you? Sorry for the ask but our little unit is not set up good for these mandatory deployments.

Hi folks,

I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

Subject: SitRep - Nanton, High River, Okotoks and Turner Valley Detachment areas SAD, Planned Slow Moving Vehicle Rally - January 23rd, 2022

Sent from my Bell Samsung device over Canada's largest network.

Issue:

- Slow moving vehicle rally, Sunday January 23rd, 2022 starting at noon from Hwy 2 from Nanton (truck stop), through High River, proceeding on Hwy 2A to and through Okotoks and back on Hwy 2 at the Hwy 552 overpass.
- Planned start 12 noon Nanton Truck Stop along Hwy 2.
- PROS File Number 202281626 (Okotoks)

Background;

- Email received from High River ITU on January 18th, 2022 of slow moving vehicle convoy

on January 23rd, 2022 at noon from Nanton to an auction north of Okotoks, with route provided.

-Email received from Okotoks media reporter January 20th with inquiry and social media screen shot regarding planned mobile rally from Nanton to Okotoks on January 23rd, 2022 starting at noon and on same route as provided to ITU on January 18th, 2022.

Current Status:

-High River ITU will monitor the slow moving rally traffic and provide updates to general duty detachment members.

-Claresholm, High River, Okotoks and Turner Valley Detachments are aware of the planned slow moving vehicle rally.

-Okotoks Municipal Enforcement have been informed on current information regarding this planned slow moving vehicle rally.

Strategic Considerations:

-All local RCMP Detachment Commanders and ITU will be engaged.

- Okotoks Municipal Enforcement manager updated and engaged.

Strategic Communications:

-2022-01-20 Information obtained from Okotoks local media regarding mobile freedom rally inquiry on January 23rd, 2022.

-Okotoks Detachment Commander engaged local media to acknowledge the slow moving vehicle rally inquiry and provided information of collaboration of local area RCMP resources and partnering agencies.

Member / employee wellness:

-All Covid-19 related precautions will be taken by members.

Conduct/Civil Risk Assessment:

-None at this time

Detachment Commander Comments:

-All local RCMP Detachment Commanders informed and engaged regarding this planned slow moving vehicle rally on January 23rd, 2022.

-Integrated Traffic Services will monitor rally traffic and provide radio updates on January 23rd, 2022.

District Commander Comments:

-District will continue to monitor and provide assistance as needed.

Chris,

I know your busy and I prematurely hit send on the last message regarding this email. Long story short is this guy was actively ripping fences down at the big Church Protest near Stoney Plain last year. He did so while facing off with STO members sort of speak and from what I understand caused or contributed to significant disorder. If you open the file (2021528239), then open the linked court disclosure you will see photos of the event and VAN HERK's actions. This is where his warrants stem from. He is clearly takes an active role as a protestor. Fast forward, Fort Macleod has been tasked to execute the warrant; it appears VAN HERK has a following of people that side with him and likely protect him from the police. Sgt. MUCHA recently had a phone conversation with VAN HERK about the warrant and VAN HERK mentioned that we will need an army to take him.

Fast forward again, last night I was skimming through various social media posts regarding the Coutts Protest and found a Facebook posting VAN HERK made indicating that he was coming to the Coutts Protest. Obviously the outstanding warrant takes a back seat in this situation but the potential exists for disorder with him and his followers.

Of other interesting note, I found some posts that state protestors will not leave the border until restrictions are changed.

Anyway, I know you are busy so wanted to fire this off to you.

Subject: Slow Moving Convoy - FW: ***OFFICER SAFETY - Important*** FW: Alex Van Herk - Warrants

Folks,

This is a small chain of emails between Fort Macleod and Claresholm members regarding Alex VAN HERK B: **Personal**. It is possible he will show up at the Slow Moving Convoy this weekend as he is an “active” activist and protestor, the protest is close to home for him, and his facebook page makes reference to Freedom Convoy 2022 (truck rallies). The concerns with him are noted below and his warrants are related to his actions at a protest near Stoney Plain where he damaged property. Any member attending or monitoring the event on Sunday (the convoy moving from Nanton to Okotoks) should review file 2021528239 – see photos of VAN HERK in the court disclosure package (on PROS) which is likely his appearance today. Also noteworthy is his brother, also in the pics, looks similar. I was unable to extract the photos for this email, my apologies.

If he shows up it will be good for members to be aware of his history and his warrants.

Subject: Alex Van Herk - Warrants

Folks,

File 2021528239 refers

As some of you are aware we have a warrant for arrest (attached) for Alex Van Herk (photo attached) that was issued by Parkland RCMP (Spruce Grove, AB). Ben and Liam attended the Alex Van Herk residence (81052 RR 252) as well as his business Durango Livestock (252021 Hwy 511) today however he was not located. His family members and coworkers indicated he was not there however it is my belief they will be trying to hide him from us. The adults at the residence and at Durango Livestock were all pretty sketchy and were taking video of us as we were leaving the property.

When I spoke with Alex on the phone Tuesday he stated he would not turn himself in to police and that we would need to bring a "big army" when we did find him.

Alex is a big anti-vaccination and anti mask advocate as well as other government tyranny ideology. These charges (Mischief and Obstruct PO) stem from a protest that he attended this past summer. Alex's Facebook page is riddled with anti government and anti vaccination / masking posts.

Information is that Alex has about 10 or so people who strongly support him and may defend him or obstruct police should we attempt to arrest him. We do not know exactly how Alex or his support people will react if confronted.

I have also attached the Appearance Notice that we were going to release him with in case we are dealing with him in the near future.

We will discuss further with SAD CRU and try to figure out how we might track Alex down away from his residence or business.

FYI.

Folks,

Attached is a word document in format of a General Report that reflects my involvement in chasing down addresses associated to OLIENICK in the Claresholm area. Noteworthy is I chased down a bunch of addresses in town; I am betting these are all rental properties as supported by vehicles at each locating are registered to different people and a PROS file from OLIENICK's mother whom makes a complaint about a "tenant". I did locate a rural property that is linked to OLIENICK and Iron Rock Enterprises; it has a shop and C-Can at it. Lastly, I make mention of the s.37 [REDACTED] ...I think I can safely do that but if that should not be noted let me know and I can do a revision.

As usual, if any questions give me a call. Looks like I'm headed back to Coutts Sunday night so will not be in the Claresholm area next week.

Hey,

As my boss, thought I would let you know that I am deploying to the Coutts Truckers Protest on Saturday as a Bronze Commander. Not sure if anyone looped you in but just wanted you to be aware. The homefront is covered off with 2 supervisors.

[HARMS, Robert_000080097 time sheet 1 of 5s.pdf](#)

Multiple Time Sheets for processing as I served at Coutts from start to finish (minus only a few days). The narrative field on the time sheet does not expand to accommodate multiple entries therefore I had to submit 5 Timesheets which are labeled accordingly. If any questions, let me know as the summary barely scratches the surface regarding my duties. TEAM EDP claims are now submitted.

Subject: Invoice - Storage and boosting
Date: March 4, 2022 3:22:00 PM
Attachments: [Willie's Storage Invoice for Coutts65929.pdf](#)

Good day,

At the request of S/Sgt ZANIDEAN, I had Willie's Towing forward their invoice to me for the purpose of forwarding to DEOC for processing. This invoice reflects the storage of 3 seized vehicles from the Coutts Protests (Tractor on a semi and trailer, semi with no trailer, and a gravel truck). He has additional fees for having 2 trucks deployed on the seized vehicles in an attempt to boost them and get them running for us.

I see that his invoice is lacking some detail; I am aware that he was never given any paperwork for the 3 units. Feel free to contact me if there is anything I can help with.

Subject: **Personal** - land owner
Date: February 14, 2022 12:15:21 AM

Good day everyone,

FYI - on my way home tonight I received a call from **Personal Info.** of Coutts. She states that she owns the land that the "backroad" into town cuts across. I had conversations with her in the past after the road somehow expanded well onto her land upsetting her at the time. She stated that tonight she learned and seen on Rebel news that RCMP trespassed on land and damaged excavators. Although this never occurred on her land, involved any property of hers, and that she is currently living in Montana, she expressed much concern and elluded that she did not want to be associated to us or allow us to continue accessing her property. She questioned me about police actions and of course I did not speak of any specific incidents and advised her that all our actions are lawful. We discussed this for several minutes and at one point she wanted the rebel news clips reviewed and my superiors to call her.

I advised that my superiors were not available and perhaps I would look at the clips. I then learned that she received a phone call from someone whom expressed concern about her supporting RCMP; no threats made but it was clear she had been spoken to likely by protestors. I advised her that I or someone would call her back (a cool off period would be beneficial).

I just wanted everyone aware as we previously identified the road on her land as a key egress road and to be held at all costs. I can call her back on Monday and massage this a little more.

Date: February 13, 2022 3:48:36 PM

Hi Zane.

I hope all is well with you and your team. As you are likely aware, your unit lent us a Taurus police car earlier last week as we were in dire need due to deployments to the Coutts border and break downs. I'm not clear on when or if a return date was discussed but was very much hoping hoping we could keep it a little longer for exact same reasons. Would that be ok with you? Sorry for the ask but our little unit is not set up good for these mandatory deployments.

Date: March 18, 2022 6:04:00 PM

All,

Just a heads up that there is some indications that there may be a protest at the Nanton Community Hall, tomorrow at 13:00 hrs. With that said, as of a short time ago, I could not find anything on social media to support this.....so maybe or maybe not. Ken and Gina will keep an eye on things and call me if any issues develop. If things come un-hinged we will be reaching out to members with PCs at home or on RTO. Just a heads up.

Subject: Protest Deployments
Date: February 6, 2022 4:55:00 PM

Folks,

I just wanted to reach out for a couple reasons. The first is to say “hi” since I have not been around for a week...I hope everyone is well. With that said, I also wanted to comment on the current Protest situation in Coutts and across Alberta. As we all know, I was deployed down to Coutts at onset of incident. The incident has grown significantly and as we all know Dalyn and his team are also now deployed. Unfortunately, the protestors have dug in and the event continues to demand a police presence on the front lines amongst other places. I know several other protests are ongoing across the province including in Claresholm and Nanton which also tests our resources. I thank everyone for the hard job you have been doing under these most difficult circumstances. Tom is in charge and overseeing both detachments and doing a splendid job. Hubert is our senior constable and is no doubt feeling the added pressure. Please continue to do what all of you do best and shine as times get difficult. Please ensure you are all working together as a unit, help each other out, and be there for each other (as you always do). At this point, I would not be surprised if we get ordered to send more members to the protests from both Claresholm and Nanton....we may have to think outside the box for that one but time will tell and we will keep you posted. If at any time you have concerns about the current state of the union, please reach out to Tom, Dalyn or I. I’m hoping things settle down sooner than later.

Hi Ma'am,

This looks pretty accurate. The only thing that needs to still be addressed is the bronze commander starting Feb 10. Tim Kelly is currently there in bronze command and both sergeants Wright are currently there as GD sub-bronze and road boss, respectively. All three will be departing after their dayshift on Feb 6. On Feb 7th dayshift, I will be the bronze commander, John Spaans will be replacing Kevin Wright as the GD sub-bronze and Rob Harms will be replacing Bob Wright as the road boss. My last shift will be Feb 9th dayshift, I am not sure if Spaans and Harms are staying beyond that. I have CC'd both in this email for their response.

With my departure after my shift on February 9th, we will need to have a bronze replacement starting Feb 10.

If you need anything else, please give me a call. Thank you for sorting this out, I know it is a headache.

Thanks,

Chris

Subject: RE: Bronze GD changeover -

Hi Ma'am,

This looks pretty accurate. The only thing that needs to still be addressed is the bronze commander starting Feb 10. Tim Kelly is currently there in bronze command and both sergeants Wright are currently there as GD sub-bronze and road boss, respectively. All three will be departing after their dayshift on Feb 6. On Feb 7th dayshift, I will be the bronze commander, John Spaans will be replacing Kevin Wright as the GD sub-bronze and Rob Harms will be replacing Bob Wright as the road boss. My last shift will be Feb 9th dayshift, I am not sure if Spaans and Harms are staying beyond that. I have CC'd both in this email for their response.

With my departure after my shift on February 9th, we will need to have a bronze replacement starting Feb 10.

If you need anything else, please give me a call. Thank you for sorting this out, I know it is a headache.

Thanks,

Chris

Hi mam,

Just thought I would check in with you. I've been involved in several roles at Coutts including GD, CCMG, and community engagement. Not sure if tomorrow is my last day or if you would like me to stay longer. Just thought I would throw this out for planning purposes.

Mam,

I was Road boss reporting to Staff Spaans. I am wide open for the whole week and almost wide open the following week...just have to change a couple meetings if needed the following week. I was engaged prior to this event unfolding, one of the first boots on the ground and would like to see it through if possible!

Subject: RE: Checkpoint Incident
Date: March 25, 2022 2:47:00 PM

I don't believe there was a new file created for it. In all cases that I contributed to any part of the investigation I was asked to create a report and send it to the Serious Crime's Branch members whom were funneling everything in for their review and investigation. The general Coutts File was 2022-111482; I just had a look at the PROS file which contains a ton of info but also states "FILE IS BEING MANAGED BY SCB-GIS USING eMCM."

As indicated prior, I do have all my notes and reports; with that said, Serious Crimes Branch called me a couple days ago and asked me to re-submit everything plus anything I did not submit for disclosure purposes.

Staff,

As per my text message.

Sgt. Harms has been here since last Friday. I think he may be on a couple of days off and is returning next week.

I have been here since Sunday with STO. I don't have a date that I will be released.

Claresholm / Nanton can not spare another member as we already have 4 members off on ODS and two new recruits who can not be released as they are both under 2 months.

We are down to 6 members (one of which is on loan from High River) to cover both detachments and provide back up to Fort MacLeod.

If we absolutely need to send someone I can try to get in touch with Cst. Tom Nairn who is I/C of Nanton and watching Claresholm as well.

Thanks,

Dalyn

Subject: Conspiracy to Commit Murder - Anthony OLIENICK B: **Personal**

Good day folks,

****This email is not to be disseminated****

As you all know, I was deployed to the Coutts Border Protests for the last 2 weeks and have chosen to take this week off (kind of) to get some R&R and burn some leave time. With that said, I wanted to touch on the disturbing events and findings that occurred in Coutts that involved the discovery of an arsenal of weapons, ammo, body armour, and more and the arrests of multiple suspects including Anthony OLIENICK B: **Personal** whom is a local to Claresholm.

As we all know, OLIENICK, like the others, has been formally charged with Conspiracy to Commit Murder. I do not know all the details but can tell you that their plan was very very real, and their target was RCMP officers. This, combined with the weapons cache, knowing he is from Claresholm, and knowing that he has friends and family from this area, tells me that we must operate with heightened awareness. In addition to this, I can tell you that several of the protestors we dealt with that acted unlawfully were from the areas of Claresholm, Fort Macleod, and surrounding areas. I am also aware that we have had protestors and supporters attend our Nanton and Claresholm Detachments in the last couple weeks challenging us regarding police actions on protestors. All too often we get complacent and comfortable with our surroundings but I would suggest tightening up a little bit and ensuring you have that Situational Awareness / head on a swivel mentality – which you should anyway.

Early this morning, I engaged with the Coutts investigators to speak to them about properties that OLIENICK may have in the Claresholm area (thanks Dalyn) and if any actions are required in relation to those properties. Since then, Claresholm Det received 2 information files about OLIENICK and storage of firearms in this area. As a result, the investigation team is focusing some of their efforts in our area. Going forward, if anymore information files are received regarding OLIENICK, please start a file but do not take any actions – please advise me and we will forward these files for GIS to deal with.

If any questions, let me know.

Subject: RE: Conspiracy to Commit Murder - Anthony OLIENICK

Hi Robert,

Thanks for the heads up on this, I appreciate the feed back. OLIENICK is in custody and hopefully will be for some time. It was our information that OLIENICK had sold his property and business to support this "cause". If that is not the case I would suggest that we look into writing a warrant for both of those locations. Would you be able to provide me some information if he still in fact has property in the area.

I have copied my command triangle and LAST member in on this email chain to get their heads wrapped around the possibility of obtaining the warrants.

Don't hesitate to reach out should you have any more info.

Thanks

Aaron

Subject: Conspiracy to Commit Murder - Anthony OLIENICK

Hi Aaron,

First of all, I want to say "Good Job" on all the work you and your team have been doing in Coutts; it was great to see you all there and great to see some of the results. Regarding OLIENICK, he is obviously facing some serious charges and I assume currently in jail; can you confirm that he is remanded? OLIENICK resides in the Claresholm area and has a business in Claresholm. I am the Commander for this area. Some of our members are getting suggestions from the public that OLIENICK has or likely has a stash of guns at his residence or maybe at his business. I'm not sure how solid the info is but am curious if your unit is addressing firearms of persons charged such as OLIENICK? Let me know.

Ladies and Gents,

Just a quick update:

1. My members are currently trying to verify if OLIENICK has properties/businesses in or near Claresholm – might take a bit to get this figured out without burning ourselves.
2. 2 new Information files have developed today about OLIENICK, his guns, and going to Ottawa with his guns. They are files 2022203896 and 2022203616. I think Cpl. KLASSEN was advised but wanted to make sure everyone is aware as they are both of concern.

Good morning Cpl. LeFrancois and Sgt. Siddiqui,

Thank you so much for volunteering – we absolutely could use you both as replies have been very sparse. Your rotation will be as follows:

Group: **CLASS1 A - 2**

NIGHTS: 12:00 – 24:00

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

Joining instructions will be sent out shortly.

Thank you so much again for helping us out,
Matt - DEOC

Subject: CORRECTION: *URGENT CALLOUT* CLASS 1 Drivers for Coutts Deployment - Feb 23-Mar 1 (travel included)

Good morning,

A need has been identified for 4x Class 1 Members to be in Coutts for the following days:

- Wednesday, February 23, 2022 – travel to Lethbridge
- Thursday, February 24, 2022 – crossover training with the current team Members to learn how to operate the equipment
- Friday, Saturday, Sunday, Monday (February 25, 26, 27, 28)
 - 2 members working 09:00 – 21:00 hours
 - 2 members working 12:00 – 24:00 hours
- Tuesday, March 1, 2022 – return travel

Please seek approval/releasability from your supervisor, and respond either way regarding your availability. First come first serve.

Please also respond with your class of DL (Class 1 required) – same must be valid.

Thank you,
Matt - DEOC

Hi Megan,

Collator is K2324
IO is 749810
File is 2022-111482

Regarding base schedule, I'm not sure exactly what is happening there. I understand that DEOC may or may not change the schedule depending how much notice the member is given. I believe less than 72 hours notice means no schedule change, greater than 72 hours means they will change your schedule. That's my understanding but don't quote me on that.

Hey Rob,

Could you advise which cost centre I am supposed to use for my expense claim?

Also, were my home shifts supposed to be manipulated to reflect what I worked while I was deployed or do they stay what I was supposed to work and everything outside of those times is OT?

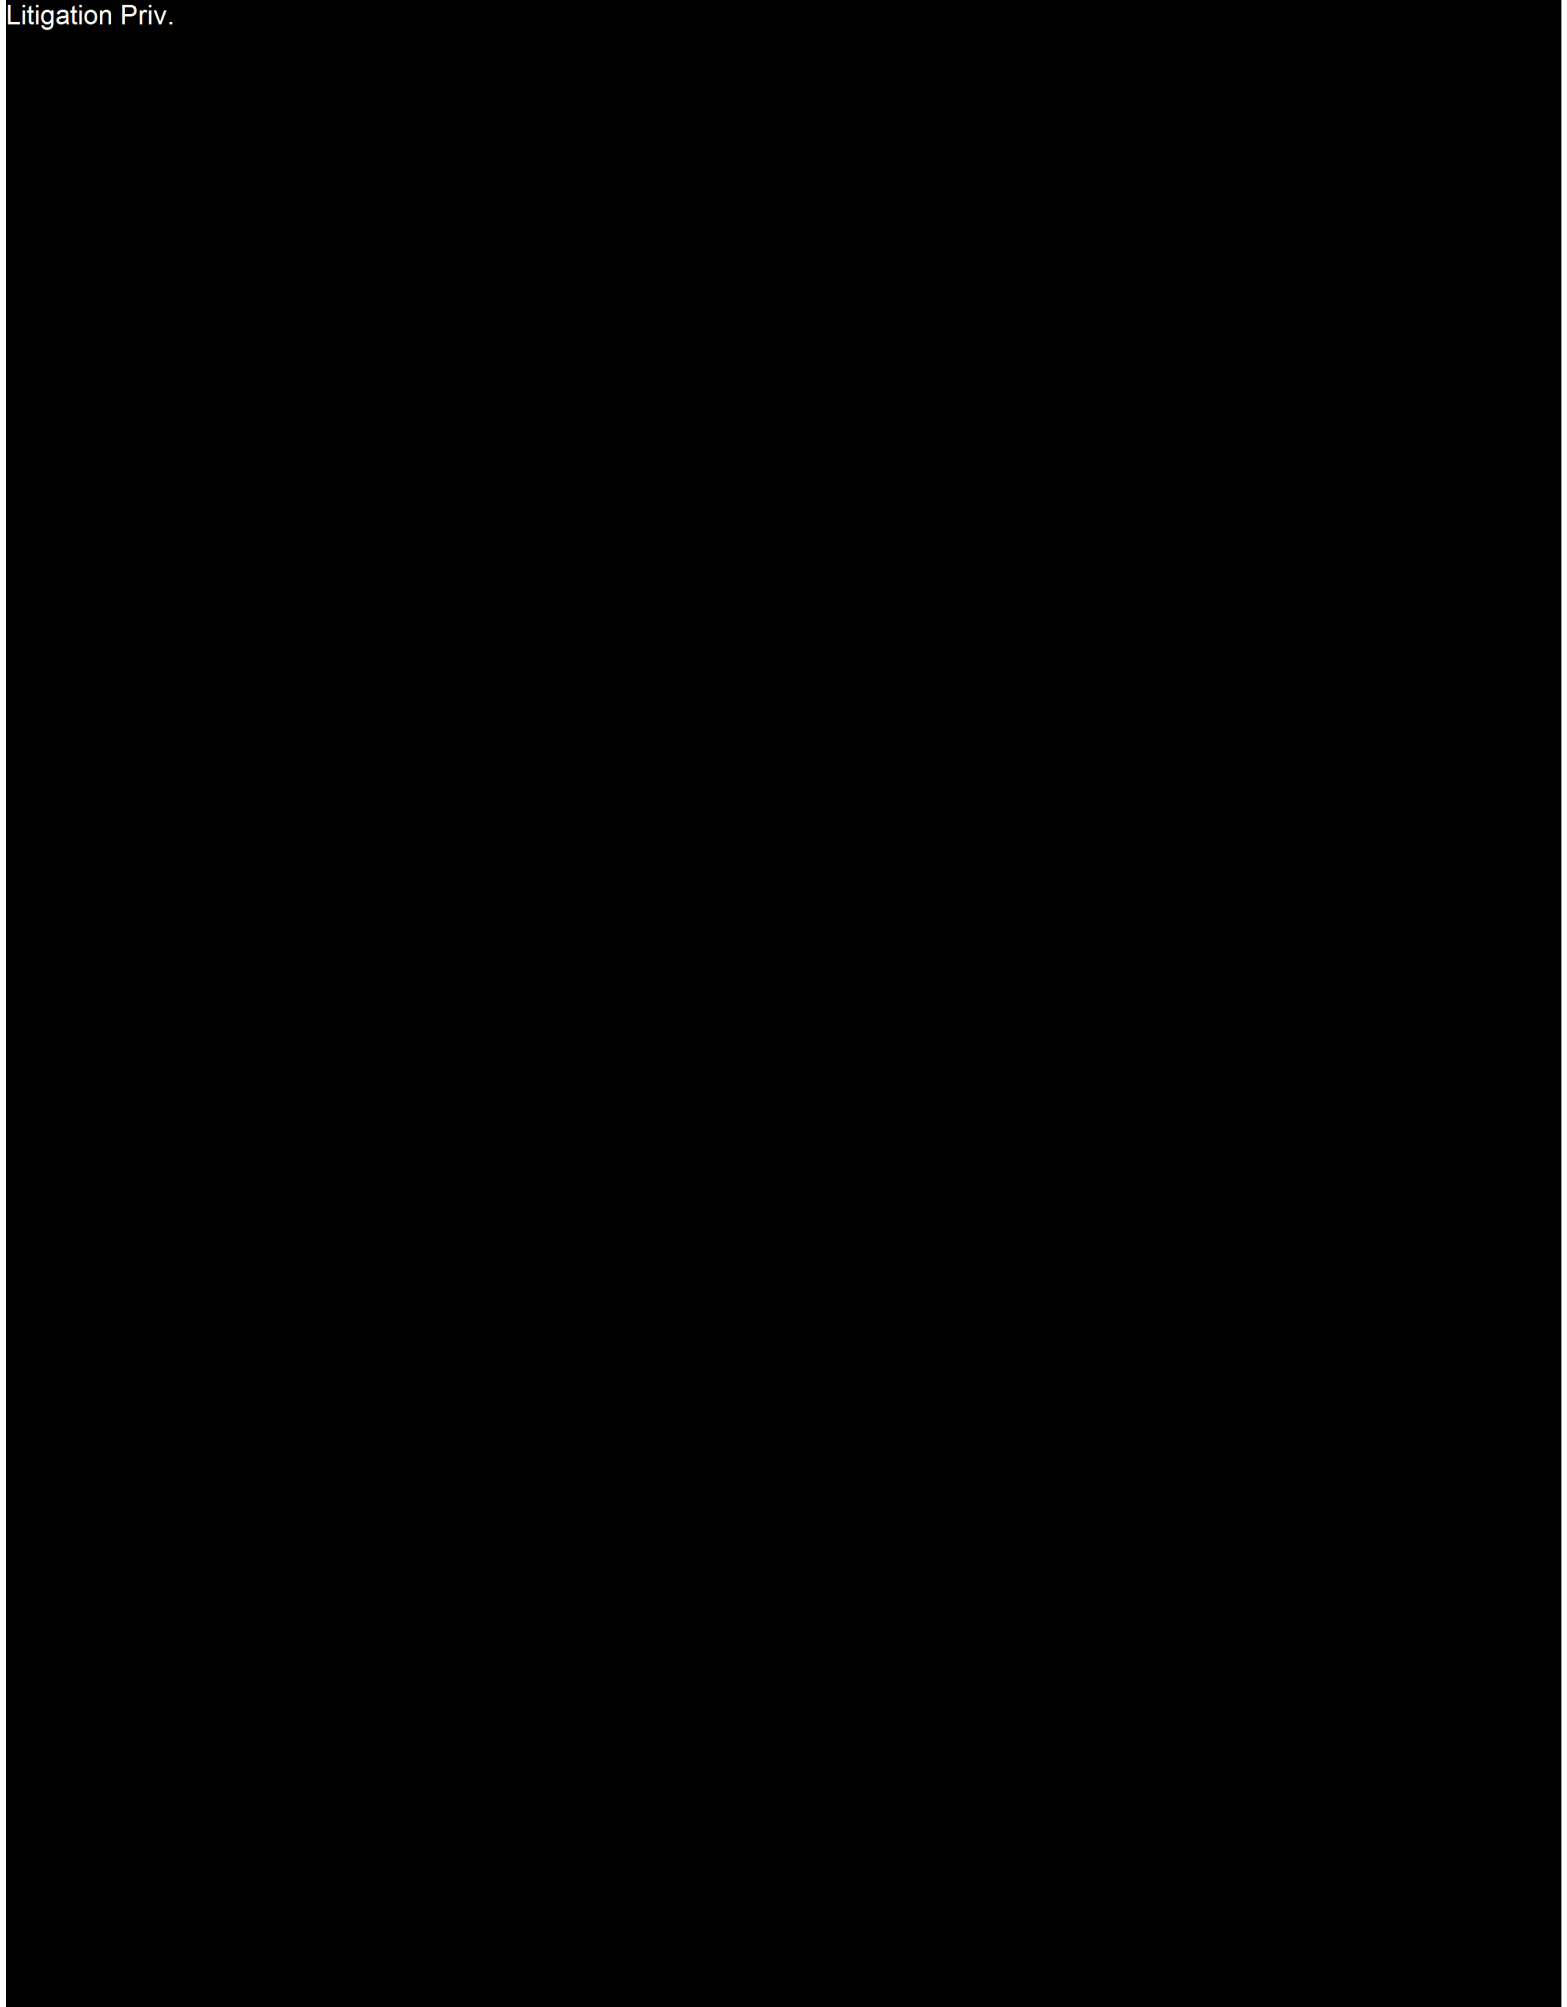

Thank you,

Megan

Subject: Coutts/Lethbridge VRT Departure (Mar 1) - Update

Mar 1

Hello Staff,

Just a quick update for your information/reporting:

- All 4 remaining tow vehicles pre-positioned at the Coutts scales were fueled and returned to the Lethbridge GofA yard on 2022-02-28 @ 1500 hrs;
- All keys – including duplicates – along with ARI fuel cards and vehicle registrations were provided to Sheriff **Personal**. There was one surplus ARI card that was initially provided to members, however, this card was inadvertently transferred to **Per** yesterday with vehicle keys. Short story: he will be dropping off this remaining fuel card (with receipts) to Cpl. Rylee Guckert at Coaldale who will mail it to DEOC for post-audit processing;
- VRT members assisted with the unloading of the chained-down loader on the gooseneck trailer attached to the Peterbilt tractor in order to confirm 'road-ability' for CVIP transport purposes;
- A private mechanical contractor was on-site to commence the transfer of vehicles to a shop for the purposes of CVIP inspection/repair;
- I cleaned out the Welcome Centre (Holiday Inn Express) and walked through the room with the hotel manager in order to officially close out our residency by Cpl. Jean Nault and his staff; and
- All Class 1/3 operators are alive to the potential that the request from DEOC regarding future deployments *may* come tomorrow, next week, next month or next year.

Lastly, thank you for allowing the opportunity to lead the 3rd VRT phase and GD roving patrol

members as Bronze Command. I immensely enjoying with all of the deployed members but specifically yourself, Harms, Gord, Lee and Morty!

Regards,

Farid

Good morning all;

Just wanted to give a heads up on the commercial inspection timeline. Fleet Brake has taken the four units identified below, underlined and in red, all others identified in red will be inspected following their completion.

I will update everyone as we go along. There is an understanding that should the need arise, the trucks and trailers will be available on short notice.

- o 2007 Freightliner M2, Flat bed – No CVIP required at this time
- o 2010 Dodge Ram 3500 Tow Truck – No CVIP required
- o 2002 International 4300 Medium Tow Truck – CVIP required to fulfill Out of Province requirements – I may drop these off today as they appear to be in fair condition which would allow for a quick turnaround.
- o 1996 GMC 3500 Tow Truck – No CVIP required
- o 1998 Freightliner Classic, Heavy Tow Truck – CVIP required by end of the month (March)
- o 2010 Komatsu D61 Dozer with winch – N/A
- o 1999 Case 621B Wheel Loader- N/A
- o 2010 Arnes Tri-Axle Scissor Neck Lowboy – **Currently at Fleet Brake estimate sent to ARI for approval, some repairs required**
- o 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer – CVIP required – Currently at Fleet Brake CVIP has not been started but may start the inspection today
- o 2008 Western Star Semi Tractor – CVIP required – Currently at Fleet Brake CVIP has not been started but may start inspecting today
- o 2006 Peterbilt Semi Tractor – **Currently at Fleet Brake – Major repairs needed, anticipate an estimate today. Will review with management prior to go ahead**
- o 2014 International Prostar Semi Tractor – CVIP required

Good day [Perso]

No troubles at all – We have not used the equipment since initially parked on March 1st. I must admit it is comforting knowing that it is there. Currently there is approx. 12 to 20 protestors still at the legal site near Milk River with various sizes of vehicles that we are monitoring and dealing with. We have been encouraging them to ship out but to no avail. At this point, we continue to encourage them to leave. It would not surprise me if we have to take a more stern approach and I would say there is still a slight chance we may need some of the tow equipment. I have spoken to one of the bosses on this end and we are confident that if we need to deploy the equipment it would be before the end of the month.

Robert;

Just to keep you in the loop

All but one vehicle is now at Fleet Brake; those trucks don't like this cold weather apparently. [Perso](#)
[Perso](#) and I spent a few hours this AM trying to get them started.

Anyways the big white tow truck is still in the compound and won't start. Seems to be having some battery and starter issues. The Fleet Brake tech will be waiting until it warms up on Monday to try that one again.

We are hoping for a quick turn around on some of the inspections, so the vehicles can be returned to the yard should the need arise to use them.

Subject: HARMS - Report of OLIENICK Locations

Folks,

Attached is a word document in format of a General Report that reflects my involvement in chasing down addresses associated to OLIENICK in the Claresholm area. Noteworthy is I chased down a bunch of addresses in town; I am betting these are all rental properties as supported by vehicles at each locating are registered to different people and a PROS file from OLIENICK's mother whom makes a complaint about a "tenant". I did locate a rural property that is linked to OLIENICK and Iron Rock Enterprises; it has a shop and C-Can at it. Lastly, I make mention of the **s.37**...I think I can safely do that but if that should not be noted let me know and I can do a revision.

As usual, if any questions give me a call. Looks like I'm headed back to Coutts Sunday night so will not be in the Claresholm area next week.

Hello Person, unfortunately I do not.

Hello Lee, would you happen to know who is in possession of the ignition keys for the three tractor trailer units? Personal Info. one of our Vehicle Safety Investigators, is trying to coordinate and get vehicles properly inspected, when not in immediate use by the RCMP.

Persona

I will be on course next week in Edmonton.

Personal from Fleet Brake, will start picking up the trucks and trailers Monday February 28, 2022 to start the CVIP inspections. **Personal** has agreed to meet with **Pers** on Monday morning to discuss getting into the compound to retrieve the trucks and trailers.

I have touched base with **Personal Info.** SHP as he apparently knows where the keys are? I will figure it out

I will update you throughout the week with the results of the inspections.

Brian

Hello,

Our contact in Lethbridge is Personal Info. [REDACTED] Vehicle Safety Investigator.

He is going to confirm which units need inspections and will assist in locating a facility, and can book and take the vehicles for inspection if needed. He'll get us the list before weeks end so we know what we're looking at.

Thanks,
w.

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border.

Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - 2007 Freightliner M2, Flat bed
 - 2010 Dodge Ram 3500 Tow Truck
 - 2002 International 4300 Medium Tow Truck
 - 1996 GMC 3500 Tow Truck
 - 1998 Freightliner Classic, Heavy Tow Truck
 - 2010 Komatsu D61 Dozer with winch
 - 1999 Case 621B Wheel Loader
 - 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - 2008 Western Star Semi Tractor
 - 2006 Peterbilt Semi Tractor
 - 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is Personal Info. with Agriculture, mobile Personal Info.).
 - The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.

- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca) Irrelevant

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the equipment will be required
 - Action Item: Transportation will provide support for Commercial Vehicle Inspections on or before March 1st (while there is a possibility of extending exemption requirements, this is not the preferred option)
- Medium Term (Next two / three months) consideration:
 - Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Kind regards,

Perso

Subject: RE: JOINING INSTRUCTIONS - ORT
Date: February 23, 2022 1:38:00 PM

We are scaling back resources. It has been decided that we don't need to bring in another NCO for the VRT. With that said, S/Sgt. MORTON is not required. The plan is that I will leave Friday. Of the 4 drivers and 1 support (ORT van) members coming, 1 of them is Sgt. Farid SIDDIQUI. He has agreed to take on the NCO duties of the team and can drive/tow if needed. This is easily done as all our tasks are caught up and there is very little on the go. If any questions about that let me know.

On a side note, because I have been CC'd all the Joining Instructions, I show the following members coming up for the next set:

1. Chris KIRBY.
2. Rylee GUCKERT
3. Holly LEFRANCIOUS
4. Farid SIDDIQUI (Sgt and NCO of the team).
5. Curtis Harjulla (ORT van support).

Can you please confirm the above persons for me?

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend
- I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how
to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours
- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Subject: RE: JOINING INSTRUCTIONS - ORT

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Subject: JOINING INSTRUCTIONS

Good Morning,

We need Joining Instructions for Matthew Wiese who will be working as a Class 1 driver Dayshift (09:00 – 21:00). Travel day will be on the 19th, Training / Crossover day on the 20th, Working 21st – 24th, and travelling home on the 25th.

Thanks,
Jess

Subject: Object removal team member

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend
- I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- 2 teams of 2 members working 09:00 – 21:00 hours
- 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Hi Alex,

Regarding the light plants, I located all 3; they are being used at the secure parking area for PCs at the hotels. I would suggest leaving them in place until we decommission that parking area – which needs to be reviewed I would assume soon if we are spooling down. Silver Commander, S/Sgt. Gord YETMAN is CC'd.

I have no involvement with the PCs but tabled this with S/Sgt. YETMAN and Cpl. Murray GORDON – they will look at this tomorrow.

Sgt. Harms as per our discussion,

- 1) We have 3 Light plants rented from United Rentals. One is at the Fairfield lot. The other two are at the other hotels?
Just wanting to confirm if we still need them? Also, when we have a demobilized date, please advise KDEOC so we can contact United Rentals to pick them up.
- 2) PC's loaned out by Post Garage and Red Deer:
 - 2 are being picked up by Meadowlark Towing, hopefully tomorrow, due to mechanical issues.
 - 3 are outstanding. Again wanting to ensure they are returned when we are demobilized. Cpl. Jean Nault may be able to drive one back to Post Garage. Believe 2 are from Red Deer Detachment.

I will confirm from post garage which Unit numbers these vehicles are, hopefully to make things easier to track.

Let me know if you have any questions.

Thanks James,

I have been trying to get ahold of **Personal Info.** on a couple things but have never been able to get ahold of him. Are you able to let the GOA people know that we are winding down at end of next set, meaning that on Feb 28 or before, we are planning on having all tow assets returned to the GOA lot? That is the last day of VRT (travel home is next day for those members). It would be great if they left the Tow assets in the GOA yard for several days or weeks if not needed elsewhere...just in case we have to redeploy. I can call someone too if you have contact info.

Subject: Meeting with the Province

I was invited to a meeting with the Province with regards to the assets purchased for the towing/recovery of vehicles and equipment used during the protests.

Personal Info. called the meeting and the following persons were present:

Personal Info. (AB Gov)
Personal Info. (AB Gov)
Personal (AB Gov)
Personal Info. (AB Gov Sherrifs)

I was the only representative of the RCMP who was invited to this meeting (not really sure why):

Topics Discussed:

The items currently owned by the AB Gov. related to the vehicle towing strategy is **exempt from**

CVIP inspection until March 1, 2022. I was advised that if required this exemption can be extended so they are looking for some feedback on what the usage looks like going forward.

With respect to the equipment being used I advised that all the equipment is currently being used "actively in standby" as there is nothing to remove but that may change at any time. We are maintaining the use/availability of the equipment at this time until a decision is made to further reduce capacity.

What will be done with the equipment (surplus, transfer to RCMP, storage, disposal)

- Keep on hand until the summer.
- Store and maintain.
- Can be used by RCMP (potentially an end user agreement). Looking at a short term agreement.

Ultimately there was some discussion about what/how this specific equipment and/or similar equipment might be beneficial in the future moving forward in various capacities. Ultimately I advised the group that I would pass along the above for the consideration of RCMP management in K-Division to determine what/who should be involved and responsible for the discussion and decisions moving forward. I advised that it was not within my authorities to agree to anything that would result in liability or costs to the RCMP in Alberta but advised that I would be happy to assist however I can in supporting this process moving forward.

I note from my e-mail that I am not being asked to return to Lethbridge for the next deployment so I am forwarding this to you guys for your knowledge and consideration moving forward.

Let me know if there is anything else I can do.

After talking to S/Sgt YETMAN, Cpl. GORDON, and the D.O., I believe the plan is for our members (Coutts operation) to move the loaner PCs to Coaldale since we no longer have day time security at the secure parking lot. From there, the loaner cars to be picked up by Meadowlark and delivered to their home units. Not sure if Meadowlark has yet been tasked. With all that said I have Ccd this to S/Sgt YETMAN and Cpl. GORDON for confirmation.

Morning Jean, that may have worked to our advantage.

B108 / B102 (mechanical issues) / B101 definitely needs to be returned to post garage.

But we also have SU102 - can be returned to Sundre detachment and WC209 - can be returned to Wetaskiwin detachment.

Sgt. Harms, do we have members that can take these units to their home detachments ?? Or Eric can these units be transported by Meadowlark?

We also have CC102 / CC103 Coaldale Detachment and 2 admin vehicles which I believe are SAD assets??

Just want to make sure all these vehicles make it home.

Subject: PC's in Lethbridge

Hi DEOC

Alex and I were discussing the PC's here that have to get back North. Meadowlark Towing was supposed to be here today to take back the 2 lame ducks to Post Garage, but due to manpower shortages, didn't make it. Its now being moved to Friday. Lynne spoke with Perso and it may be possible for him to transport all 4 PC's out of here, which takes care of that headache. Do you want Meadowlark Towing to do this, or have other arrangements already been made for the remaining 2 PC's ?

Thanks,

Jean

Hi Personal

Here is what I have for plates and info - all these are major offenders at the south end. There will be more to follow cause everyone is scattered right now:

1. Personal Info. has 4 semi trucks and trailers at the south blockade - major and obvious offenders. Some of the plates below may come back to them.
2. Personal Info. - Truck and trailer - plate Personal - Major offender.
3. The jack knifed semi that started the blockade NB - plate is Personal plate. Tractor is Personal plate. Plate was bent upwards so could not be easily read.
4. Black truck and trailer - Personal plate.
5. Red GMC truck Personal
6. Silver or white Dodge Personal Info.
7. Blue semi Personal
8. White chev pulling trailer Personal
9. Grey chev silverado Personal
10. trailer - Personal
11. Personal Info.
- 12.
- 13.
- 14.
- 15.

Hi Robert,

Here are some of the plates we got last night. These were all south of the scale near the blockade where B&D Walters super B combination was blocking the highway north bound. We did not get plates from the southbound side (I believe that was another team).

Hi Zane.

I hope all is well with you and your team. As you are likely aware, your unit lent us a Taurus police car earlier last week as we were in dire need due to deployments to the Coutts border and break downs. I'm not clear on when or if a return date was discussed but was very much hoping hoping we could keep it a little longer for exact same reasons. Would that be ok with you? Sorry for the ask but our little unit is not set up good for these mandatory deployments.

Subject: Relocation and Impound of 3 Seized Vehicles

Good Afternoon DEOC,

I wanted to provide an update on the movement of the three seized vehicles, as we need to relocate them from Ken Hauck Towing in Redcliff today. I am aware that DEOC is working on a longer term solution within the Government of Canada. However, in the interest of time, with today being a Friday, I have arranged for the equipment to be moved to the following location:

Willie's 24 Hr Towing Ltd.
1248 Brier Park Way,
Medicine Hat, AB

403-548-2002

I spoke with Persq today and he agreed to the same monthly rate as the previous company, which is \$5,500 per month for all three pieces. Given that the equipment may not be there for a month, I spoke with Persq about a daily rate and he agreed to \$180/day for all three pieces, which works out to about the same as the monthly rate (assuming my math was correct). Can you please have procurement follow up with him?

Aaron: all three items will now be at the above noted location for the time being until a permanent location is arranged.

If you have any questions, please let me know.

Thank you,
Lee

Good Afternoon DEOC,

I wanted to provide an update on the movement of the three seized vehicles, as we need to relocate them from Ken Hauck Towing in Redcliff today. I am aware that DEOC is working on a longer term solution within the Government of Canada. However, in the interest of time, with today being a Friday, I have arranged for the equipment to be moved to the following location:

Willie's 24 Hr Towing Ltd.
1248 Brier Park Way,
Medicine Hat, AB
403-548-2002

I spoke with Perso today and he agreed to the same monthly rate as the previous company, which is \$5,500 per month for all three pieces. Given that the equipment may not be there for a month, I spoke with Perso about a daily rate and he agreed to \$180/day for all three pieces, which works out to about the same as the monthly rate (assuming my math was correct). Can you please have procurement follow up with him?

Aaron: all three items will now be at the above noted location for the time being until a permanent location is arranged.

If you have any questions, please let me know.

Thank you,
Lee

Hi folks,

Just wanted to update you regarding the seized equipment. All 3 pieces (Tractor, gravel truck, and semi), are stored at ATR Towing in Airdrie. I had to create new Seizure Notices for the tow company as I had no paperwork on the vehicles to give the tow company. I was unable to send you scanned copies as I do not have access to a scanner but can at a later date if needed. On a side note, storage fees on the vehicles is \$8100 per month (\$180/day per vehicle).....so be alive to that when considering options regarding the vehicles. If any questions, let me know.

Hi Rob,

Im guessing you are taking over from S/Sgt Morton on the vehicle towing side?

Airports are not something we are going to want to store a vehicle. The last thing we want is a vehicle being driven through a fence at a airport if someone tries to take back their vehicle. If we seize the vehicle we need to ensure it is stored in a safe location. The airport will not take this on.

As the vehicle towing plan was to ensure there is a safe location to store these, is this something you are continuing? There was talk of storing it at CPS or EPS's storage facility. Do you know if this was followed up on? If there was a no I would suggest we reach out to Peter Lemieux with the Province to see if they have a location.

Feel free to give me a call.

Thanks, James

Subject: Seized vehicles - Willy's Towing

Hi folks,

I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

James,

Bosses just talked to me. They don't want the seized vehicles going to Coutts or CPS. We basically got kicked out of Willie's Tow yard and are literally parked on a road with no where to go. Finding a short term option is paramount.

I spoke to MCU....they won't know what the plan is for the vehicles until tomorrow. Crown is ordering them held potentially for civil forfeiture or something...SPMD handover likely by the sounds of it but need an option now and for the mean time.

I understand that DEOC is tasked with this...but give me a call so we can discuss....I don't have your number.

Hi Rob,

This is a follow up to the conversation we had.

CPS was mentioned that these could be stored at a facility they have (I am guessing their Tac facility off **Irrelevant**). Can you please see about temporary moving these to CPS. There was discussion they would not take them for long term, but this will buy us some time to find a long term location.

Second – can we check with the investigative team about the long term plan with these trucks. If their plan is to turn them over to SPMD, when will this be done. SPMD looks after all of the costs for storage and will find a place for them to go.

If there is no plan for SPMD then we need to know here:

What are you looking for the storage of these trucks (indoor, outdoor, fenced, barb wire, gated, security etc)

What is the size you are needing

How long are you looking for storage

Where do you want them stored (city)

Do you anticipate needing more space for future seizures.

Once we know this we can reach out to leasing unit to find a suitable place.

If you have any questions, please let me know.

Thanks, James

Subject: SitRep - Nanton, High River, Okotoks and Turner Valley Detachment areas SAD, Planned Slow Moving Vehicle Rally - January 23rd, 2022

Sent from my Bell Samsung device over Canada's largest network.

Issue:

- Slow moving vehicle rally, Sunday January 23rd, 2022 starting at noon from Hwy 2 from Nanton (truck stop), through High River, proceeding on Hwy 2A to and through Okotoks and back on Hwy 2 at the Hwy 552 overpass.
- Planned start 12 noon Nanton Truck Stop along Hwy 2.
- PROS File Number 202281626 (Okotoks)

Background;

- Email received from High River ITU on January 18th, 2022 of slow moving vehicle convoy on January 23rd, 2022 at noon from Nanton to an auction north of Okotoks, with route provided.
- Email received from Okotoks media reporter January 20th with inquiry and social media screen shot regarding planned mobile rally from Nanton to Okotoks on January 23rd, 2022 starting at noon and on same route as provided to ITU on January 18th, 2022.

Current Status:

- High River ITU will monitor the slow moving rally traffic and provide updates to general duty detachment members.
- Claresholm, High River, Okotoks and Turner Valley Detachments are aware of the planned slow moving vehicle rally.
- Okotoks Municipal Enforcement have been informed on current information regarding this planned slow moving vehicle rally.

Strategic Considerations:

- All local RCMP Detachment Commanders and ITU will be engaged.

- Okotoks Municipal Enforcement manager updated and engaged.

Strategic Communications:

-2022-01-20 Information obtained from Okotoks local media regarding mobile freedom rally inquiry on January 23rd, 2022.

-Okotoks Detachment Commander engaged local media to acknowledge the slow moving vehicle rally inquiry and provided information of collaboration of local area RCMP resources and partnering agencies.

Member / employee wellness:

-All Covid-19 related precautions will be taken by members.

Conduct/Civil Risk Assessment:

-None at this time

Detachment Commander Comments:

-All local RCMP Detachment Commanders informed and engaged regarding this planned slow moving vehicle rally on January 23rd, 2022.

-Integrated Traffic Services will monitor rally traffic and provide radio updates on January 23rd, 2022.

District Commander Comments:

-District will continue to monitor and provide assistance as needed.

Subject: RE: Slow Moving Convoy - Sunday Jan 23, 2022
Date: January 21, 2022 3:47:00 PM

Folks,

One of the organizers sent the below noted to Alberta Transportation which highlights the route... among other things:

We would like to inform that the Freedom Convoy on Sunday Jan23 at 12 pm noon is an public invite, we have no way of knowing how many will come out to drive in it. We will do everything in our power to keep it safe and respectful, hence the communications with the RCMP and yourself With the Alberta transportation. We will all be insured and registered and everyone else is not our responsibility. Our route is leaving Nanton heading North on highway #2 to South Highriver overpass turning into Highriver west to traffic circle and North on 2a highway past Cargill. Then into Okotoks on 2A and North through town up to North Okotoks overpass and back on highway #2. This is to bring awareness of freedom lost in our country and to bring people together to stand up against fear of public condemning. Canada is great because of Freedom of Choice and it's free from discrimination but not the direction it's headed. This is Canada not China and people need to know that those that have been segregated from choosing to exercise their freedoms have had enough. We will do our best to communicate and keep it safe but we are not responsible for anybody's independent actions if they go out of line. The intent is to have a pilot vehicle and a rear vehicle that keep everyone to the suggested routes and lanes on the highway. We support RCMP and the rules of the land but we will not support the mandates that infringe on our freedoms and rights.

Respectfully **Personal Info.**

Cody,

I currently have Cst. Cara Haner and Cst. Anthony Cooper scheduled days on Sunday (short a couple others due to Covid-19). Cpl. Clint Audette is rescheduling to come in for 13:30 hrs. Cst. Josh Scott and Cst. David MacQueen are scheduled at 15:30 hrs.

Kerwin / Mark,

In addition to the email chain this convoy is part of a freedom rally, does not sound as though the caller was completely upfront about this with Craig. Apparently there are rallies held every couple weeks in Okotoks and this is likely connected.

Please monitor this slow moving convoy on Sunday afternoon. By monitor I only mean keep an eye on them and their progress just to ensure they are not intentionally impeding traffic and intersections. **WE ARE NOT ESCORTING THEM.** We just don't want any dangerous scenarios or road rage occurring.

I imagine there will not be any issues on Hwy 2 on double lanes so periodically checking the progress should suffice. Issues may start to occur if they go through the town of High River. Traffic WILL start to back up when they hit Hwy 7 and 2A. Traffic issues will be a concern from that point until they get north of Okotoks where 2A is multi-lane. We believe they will take Southridge and Northridge through Okotoks.

Keep High River Det, Okotoks Det, and Foothills Rural updated via radio so they can also monitor from there end.

FYI – media is covering this.....S/Sgt. SEMANIUK is dealing with that end.

Kerwin – can you please head our way to be in or around Nanton at noon on Sunday.

Thanks,
Cody

Subject: Slow Moving Convoy - Sunday Jan 23, 2022

FYI.

Today we received a courtesy call from [redacted] advising that on Sunday Jan 23, 2022 there will be a slow moving convoy of semi trucks and farm equipment in our area. They will be driving from Nanton to an auction location just north of Okotoks.

He plans to be leaving Nanton at approx. 12:00 noon and arriving at destination by 16:00. He plans to take Hwy 2 to High River and then 2A to the north Okotoks overpass and back onto Hwy 2. At this time no assistance is requested, just a heads up in the event we receive any complaints about this group of vehicles.

Thanks,
Craig

Subject: RE: Slow Moving Convoy - Sunday Jan 23, 2022
Date: January 21, 2022 3:49:00 PM

Here is the route everyone....straight from one of the organizers as you can tell:

We would like to inform that the Freedom Convoy on Sunday Jan23 at 12 pm noon is an public invite, we have no way of knowing how many will come out to drive in it. We will do everything in our power to keep it safe and respectful, hence the communications with the RCMP and yourself With the Alberta transportation. We will all be insured and registered and everyone else is not our responsibility. Our route is leaving Nanton heading North on highway #2 to South Highriver overpass turning into Highriver west to traffic circle and North on 2a highway past Cargill. Then into Okotoks on 2A and North through town up to North Okotoks overpass and back on highway #2. This is to bring awareness of freedom lost in our country and to bring people together to stand up against fear of public condemning. Canada is great because of Freedom of Choice and it's free from discrimination but not the direction it's headed. This is Canada not China and people need to know that those that have been segregated from choosing to exercise their freedoms have had enough. We will do our best to communicate and keep it safe but we are not responsible for anybodys independent actions if they go out of line. The intent is to have a pilot vehicle and a rear vehicle that keep everyone to the suggested routes and lanes on the highway. We support RCMP and the rules of the land but we will not support the mandates that infringe on our freedoms and rights.

Respectfully **Personal Info.**

Mark, Kerwin and Kyle,

TEAM shows the three of you working days on Sunday.

If you two could please adjust your patrol plans for Sunday January 23rd, 2022 to be down in the Nanton area for 9am on Sunday to be ready to assist Sgt HARMS and the other GD members if they request your assistance. Otherwise, traffic services will be in the area conducting regular traffic enforcement.

Thanks!

Darrin.

Subject: RE: Slow Moving Convoy - Sunday Jan 23, 2022

All,

** If I missed anyone that should be looped in on this please forward this to them – 2nd email to follow.

Please note that I reached out to **Personal Info.** He confirmed that he is one of the organizers and this event is indeed the “Mandate Freedom” Rally. I added a sup report to the file which is self explanatory and also copied below. With that said, Fort Macleod is dealing with a anti government type person on warrants in their area by the name of Alex VAN HERK. VAN HERK is on warrants, is advising that RCMP will need an Army to take him down, is deemed high risk, and there is indications that VAN HERK may attend this rally. I will send everyone a separate email regarding VAN HERK that has more info simply for awareness purposes. My sup report:

2022-01-21

12:23 hrs - File update:

- I have been monitoring the "Mandate Freedom" rally initiative on social media over the last 2 days.
- Photos and video suggests that this group has had "slow moving rallies" on highways throughout different provinces and at borders.
- Same photos suggest significant participation and significant traffic disruption.
- I have been in touch with Commanders from High River and Okotoks Det.
- I learned that **Personal Info.** previously reached out to Traffic Services and advised of slow moving equipment on hwy 2 from Nanton to Okotoks for Sunday (Jan 23) starting at 12:00 pm; it was indicated enroute to an auction.
- Today I called **Personal Info.** He confirmed that this is in fact a "Mandate Freedom" Protest / Rally and that he is an organizer. He further stated:
 - The event is proceeding as planned.
 - The participants will start gathering at Nanton Flying J near 10 am on Sunday.
 - They will depart Nanton at noon enroute for Okotoks via hwy 2 and 2a.
 - He did not know how many persons or vehicles would participate; callouts went out and no one is tracking or asking for persons to confirm their attendance.
 - This event is related to other events across the province and beyond.
- I established rapport with **Personal Info.** and advised that persons are allowed to protest and rally but rules need to be established to ensure everyone's safety; he agreed.
- After much conversation, he agreed that he will be the pilot truck for the group, will use the outside lane of the highway to lead the group. He further agreed to obey all traffic laws.
- **Personal Info.** suggested police may be needed to "help" them; I advised that they must comply with all laws and did not commit to such help.
- **Personal Info.** advised that he could not speak for the actions of others and if they would follow set rules; I requested, and he agreed, to push out the rules on his social media callouts and will try and push them out to participants the day of the rally.
- **Personal Info.** and I exchanged phone numbers; he advised I was welcome to link up with him the day of the rally or call back any time.
- **Personal Info.** demonstrated complete cooperation during my discussions and made it clear he does not want anyone to get hurt from vehicle collisions or other.
- I communicated this report to involved detachments/members.

12:18 hrs - I updated Volker Stevin of this event. I requested they update Alberta Transportation for awareness purposes to which they agreed was necessary.

12:45 hrs - **Pers.** with Alberta Transportation called me; they were unaware of this event and asking if the group obtained a permit from the province which I advised was doubtful. I provided known information to Rick about the event and agreed to call **Personal Info.** back to have him call AB Transportation for a permit.

13:05 hrs - I spoke to **Personal Info.** he advised he will call **Pers.** with AB Transportation as requested; I provided contact info.

SUI - I will likely attend Nanton at time of event.

Subject: Slow Moving Traffic Hwy2 and Hwy2A - Sunday, January 23rd

Darleen, Greg, Laura and Rob,

This is the response I sent to Brent Calver from the local media here in Okotoks. For your information as it seems that the message as received from Craig Murray on January 18th, 2022, may be more of demonstration from Nanton rather than moving equipment to an auction. I have copied Craig's initial message.... FYI.

Today we received a courtesy call from [REDACTED] advising that on Sunday Jan 23, 2022 there will be a slow moving convoy of semi trucks and farm equipment in our area. They will be driving from Nanton to an auction location just north of Okotoks.

He plans to be leaving Nanton at approx. 12:00 noon and arriving at destination by 16:00. He plans to take Hwy 2 to High River and then 2A to the north Okotoks overpass and back onto Hwy 2. At this time no assistance is requested, just a heads up in the event we receive any complaints about this group of vehicles.

Thanks,
Craig

Just wanting to keep everyone in the same loop. High River Traffic Services will be attempting to monitor the traffic movement. I have advised our municipal partner, Okotoks municipal enforcement of this information/event also.

Regards,

Zane

Hello Brent,

Sukh is currently not available at this time.

Thank you for reaching out and sharing the information. Locally we have been made aware of planned slow moving vehicles from Nanton through to north of Okotoks on Sunday afternoon through our partners at the RCMP integrated traffic services from High River. The local area RCMP detachments, High River RCMP integrated traffic and Okotoks municipal enforcement have collaborated for the planned event on Sunday.

Regards,

Zane

Subject: Statement/Interview request re: upcoming

Hello Zane and Sukh,

I hope you both been well. I'll be calling the detachment to follow up but I'm just seeking a statement regarding local RCMP position on the upcoming "Slow Roll to Freedom" demonstration that seems to be planned to come through Okotoks this Sunday afternoon (see attached screenshot and link below).

I don't think it's going to be anything unlawful but we're just looking at doing an advanced story on potential traffic disruption.

I'm available from 10-6 today and tomorrow and can be reached at 403-999-2815 or 587-325-6248 but a written statement would do just fine as well.

Let me know if it's better for me to reach out to provincial RCMP media but was hoping for local comment.

Hi Tim,

I sent out a few emails about this event....I think I will work Sunday to keep an eye on this.

Rob

Hey Rob

Not sure if you are aware of the below email – looks like there may be a protest in your area on Sunday.

Thanks
Tim

Subject: Slow Moving Traffic Hwy2 and Hwy2A - Sunday, January 23rd

Darleen, Greg, Laura and Rob,

This is the response I sent to Brent Calver from the local media here in Okotoks. For your information as it seems that the message as received from Craig Murray on January 18th, 2022, may be more of demonstration from Nanton rather than moving equipment to an auction. I have copied Craig's initial message.... FYI.

Today we received a courtesy call from **Personal Info.** advising that on Sunday Jan 23, 2022 there will be a slow moving convoy of semi trucks and farm equipment in our area. They will be driving from Nanton to an auction location just north of Okotoks.

He plans to be leaving Nanton at approx. 12:00 noon and arriving at destination by 16:00. He plans to take Hwy 2 to High River and then 2A to the north Okotoks overpass and back onto Hwy 2. At this time no assistance is requested, just a heads up in the event we receive any complaints about this group of vehicles.

Thanks,
Craig

Just wanting to keep everyone in the same loop. High River Traffic Services will be attempting to monitor the traffic movement. I have advised our municipal partner, Okotoks municipal enforcement of this information/event also.

Regards,

Zane

Hello Brent,

Sukh is currently not available at this time.

Thank you for reaching out and sharing the information. Locally we have been made aware of planned slow moving vehicles from Nanton through to north of Okotoks on Sunday afternoon through our partners at the RCMP integrated traffic services from High River. The local area RCMP detachments, High River RCMP integrated traffic and Okotoks municipal enforcement have collaborated for the planned event on Sunday.

Regards,

Zane

Subject: Statement/Interview request re: upcoming

Hello Zane and Sukh,

I hope you both been well. I'll be calling the detachment to follow up but I'm just seeking a statement regarding local RCMP position on the upcoming "Slow Roll to Freedom" demonstration that seems to be planned to come through Okotoks this Sunday afternoon (see attached screenshot and link below).

I don't think it's going to be anything unlawful but we're just looking at doing an advanced story on potential traffic disruption.

I'm available from 10-6 today and tomorrow and can be reached at 403-999-2815 or 587-325-6248 but a written statement would do just fine as well.

Let me know if it's better for me to reach out to provincial RCMP media but was hoping for local comment.

CAUTION: This email originated from outside of DHS. DO NOT click links or open attachments unless you recognize and/or trust the sender. If you feel this is a suspicious-looking email, please report by using the Report Phish button option.

Good afternoon gents,

Just a quick briefing to advise you we are taking this event very seriously and are coordinating our resources accordingly. We will be deploying additional general duty uniformed officers to the area, along with traffic services, Sheriffs, and Special Tactical Operations members. Our goal is to focus our attention to the Coutts/Sweetgrass port as our intelligence shows that is the convoy's main destination. We will also be handling media attention as this unfolds and have identified a media liaison officer.

Our intent is to work closely with the Sheriffs and Commercial Vehicle inspectors at the junction of highways 4 and 501 west and set up a checkstop there. We want to ensure the truckers' rights to a peaceful and lawful protest while attempting to minimize traffic disruption to and from the border crossing. We hope to divert non-border crossing traffic down highway 501 based on our checkstop inspections. We are currently drafting an Ops Plan and I am liaising with our Department of Justice for legal opinions on the potential of any injunctions that we may need to obtain.

I will be co-chairing our Silver Command, reporting up to our District Officer (Gold Command). Please reach out to me anytime via e-mail or on my cell with any questions, concerns, thoughts etc as we welcome and value your input.

Kind regards,
Kevin

Thanks so much for the email sir! I want to see this resolved and will do what it takes. Last night I linked up with **Personal Info.** whom seems to be somewhat of a leader and definitely has a direct link to those in the saloon. Long story short is he agreed with most of what I said and said they need to end this - he has had enough. He went to the saloon and said they too agreed but need a bit of a push to help them along and they are considering leaving Coutts today. 5 trucks already left last night and 3 this morning. He wants to know what lies ahead if they all head out today...will they all be charged, only a few, etc. I would not speak to that or make deals obviously but he wanted to know what he could tell them to move them along. Zanidean suggested that I tell them that perhaps you, the commander, may call him to clarify RCMP position regarding charges. I did not promise and said I would present this to you. Any interest in you calling the leader?

I am betting you heard about the 4 guys at the Coutts Protests that were charged with conspiracy to commit murder. One of them is Anthony OLIENICK whom is local to Claresholm or somewhere nearby. I am curious if the M.D. can help me with the following regarding him:

1. Does he own a house in the MD and if so what is the address?
2. Does he have any other properties such as businesses in the M.D , if so what is the addresses?
3. Do you know of any other properties he is affiliated to in the M.D.?

Let me know, feel free to call if any questions. Please keep this on the down low.

Subject: Two units out of service for repairs

Good morning Rob;

The 2010 Arnie's trailer (Page 8 of the Combined Labelled Photos of Gov Vehicles PDF) and the 2014 International (page 6) are in the shop for repairs today and maybe through the weekend. I asked Norm to get those done before moving onto the next truck and trailer. This will ensure you have a trailer and truck should the need arise.

The rest of the vehicles are still located as per the email I sent on Wednesday.

Once the two are completed, I will shuttle them back to the compound and update you with locations again.

Good afternoon Rob,

Thanks for your patience with this. We are just starting to get back to normal operations at this point.

I have attached the list for what I have for Class 1, VRT and ORT, including yourself. It is possible that I am missing some, but have not found them in our records yet.

Insp. Brachmann, S/Sgt. Morton and Sgt. Siddiqui may know of others that I have missed as well.

Thanks again for everything,

Justin

Subject: VRT Backup Plan

Gents,

I'm looping you all in on this given your involvement as Commanders with the Coutts VRT. S/Sgt ZANIDEAN requested a backup plan with VRT should protestors try to take the roads back near Coutts or any other area. Attached is a brief plan called "VRT Operational Backup Plan". It is only version 1 and I am waiting for additional information from DEOC including other VRT members and contact numbers but wanted to push this out today so we have at least something should something develop in the near future. Also included is the latest version of the original Ops Plan and maps which cannot be ignored should we re-deploy. Basically, the biggest thing we need should another deployment be required is information about where the Tow Trucks are, how to get them, and who and how to activate team members. I think the document captures that for the most part. The key is to activate members that have already served on the VRT team as they are experienced with the equipment. If anyone sees any issues with the document or has anything they want to add let me know.

If it should be sent to someone else as well, please do so and let me know.

On a side note, it was great working with all of you and hope to see you all soon.

Hi Rob,

It looks like the Command Post is moving to Raymond on Monday. With that in mind, I'll talk to James and we can have the equipment brought back to the GoA lot in Lethbridge tomorrow afternoon (the address is on the excel document I sent). Then, the new crew can start in Lethbridge on Monday. Depending on the direction of Silver, you may want to base the team out of Lethbridge. I'm also told there's a vacant lot across from Raymond Detachment you may want to consider as a staging area, if you end up staging there.

Subject: RE: VRT Equipment

Rob, thanks for this update!

Here is a quick and dirty list of the tow operators that I crossed paths with from my WhatsApp group contacts as per your request:

Name	Posting	Phone #
Sgt Farid SIDDIQUI	IBET Calgary	Irrelevant
Cpl Holly LeFrancois	Hinton GD/GIS	
Cst Chris Kirby	Redcliff Traffic	
Cpl Rylee Guckert	Coaldale Traffic Recon	
Sgt Brandon Humbke	Edmonton GIS	
Sheriff Glenn Munden	Stettler Scales	
Cst Ben Stubbe	Fort MacLeod GD	
Cst Jason LaGrange	CAD Traffic	
Cpl Kevin Nicholls	Elk Point Traffic	
Cpl Gary LeBlanc	Fort McMurray Traffic	

There are the other Class 1/3 operators that worked the shift prior to last week (with you) so I don't have their names, unfortunately. Cst Dwayne Pardy was one of those guys.

The other invaluable resources that I would keep on speed-dial for any future deployment considerations are:

S/Sgt James Morton – EAD Danco – Irrelevant
Cpl Curtis Harsulla – St-Albert Traffic/STO (ORT) – Irrelevant
Civilian SME Joe Kauzulin (Edm Transit) – Irrelevant

Regards,

Farid

Subject: VRT Equipment

Gents,

In followup to our meeting today and considering that we may have to utilize the tow equipment again, here is some noteworthy points specific to the Tow Equipment:

I had a long phone conversation with [Personal Info.] on Monday. Long story short is there was a big question mark, on their end, what they should do with the tow equipment. The tow equipment was bought specifically for us and the Coutts Border issue which appears to be done now. Further to that, the trucks were exempt from CVIPs under an Emergency Clause which expired March 1 meaning that most of the equipment is now subject to a CVIP inspection before being used again. Further to this, they were looking at moving the trucks to an Edmonton facility.

After discussions, the following decisions have been made:

1. The tow equipment will remain in the GOA yard till the end of March and is there for us to use if the need arises again. It is noteworthy that the GOA yard does not have any security elements in place other than a fence and the odd worker attending the yard.
2. GOA will have each truck certified under the CVIP program but will only do one truck at a time. GOA will converse with me regarding progress and issues. This started yesterday.
3. The tow trucks will be moved to the GOA Edmonton facility at the end of March; this is a secure indoor facility. RCMP will still have access to the vehicles if needed.
4. GOA has agreed to hang onto the trucks till the end of summer at which time they will re-visit the need to keep them.
5. The C.O. has been given an agreement to sign regarding liability when using the trucks.

Further to this, I have spoken to DEOC and tasked them to build a list of Tow members that served time on the VRT team (trained with the equipment). The list will contain names, phone numbers, and geographical location of the members and serve as a list that can be accessed should quick deployment of the tow equipment and operators be needed.

Hi folks,

Just wanted to update you regarding the seized equipment. All 3 pieces (Tractor, gravel truck, and semi), are stored at ATR Towing in Airdrie. I had to create new Seizure Notices for the tow company as I had no paperwork on the vehicles to give the tow company. I was unable to send you scanned copies as I do not have access to a scanner but can at a later date if needed. On a side note, storage fees on the vehicles is \$8100 per month (\$180/day per vehicle).....so be alive to that when considering options regarding the vehicles. If any questions, let me know.

Subject: Seized vehicles - Willy's Towing
Date: February 21, 2022 7:46:24 AM

Hi folks,

I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

Subject: Seized Vehicles
Date: February 25, 2022 1:44:00 PM

Good day everyone,

A few minutes ago I received a phone call on my cell phone from a man claiming to be **Persona** **Personal**. He stated he was from **Personal Info.** He further claimed he knew a seized vehicle / vehicles to be at ATR Towing in Airdrie and claims he got my number from them. He wanted to talk about the seizure and seizure notices. I did not acknowledge the location of the equipment or entertain his discussions as I know protestors have been looking for the vehicles and did not know whom I was talking to. I told him someone will call him back. I checked the **Personal Info.** Website which lists and shows him as a lawyer. Can someone from the investigation team call him? His number is **Personal Info.** I assume the team has original seizure notices on the vehicles. Noteworthy is since I did not have the original seizure notices for the vehicles, I drafted seizure notices for the tow yard. If copies are needed let me know.

If you wish for me to call him back and provide copies of my seizure notices let me know.

Folks,

This is a small chain of emails between Fort Macleod and Claresholm members regarding Alex VAN HERK B: **Personal**. It is possible he will show up at the Slow Moving Convoy this weekend as he is an "active" activist and protestor, the protest is close to home for him, and his facebook page makes reference to Freedom Convoy 2022 (truck rallies). The concerns with him are noted below and his warrants are related to his actions at a protest near Stoney Plain where he damaged property. Any member attending or monitoring the event on Sunday (the convoy moving from Nanton to Okotoks) should review file 2021528239 – see photos of VAN HERK in the court disclosure package (on PROS) which is likely his appearance today. Also noteworthy is his brother, also in the pics, looks similar. I was unable to extract the photos for this email, my apologies.

If he shows up it will be good for members to be aware of his history and his warrants.

All,

Please see the below noted email from Sgt. MUCHA of Fort Macleod Det; it is self explanatory. We may be called upon to assist Fort Macleod members when dealing with VAN HERK; if so, please treat their request as a priority and officer safety matter. Risk is high with VAN HERK. Photos, warrant,

and release doc attached.

Sgt. Robert (Rob) HARMS

Subject: Alex Van Herk - Warrants

Folks,

File 2021528239 refers

As some of you are aware we have a warrant for arrest (attached) for Alex Van Herk (photo attached) that was issued by Parkland RCMP (Spruce Grove, AB). Ben and Liam attended the Alex Van Herk residence (81052 RR 252) as well as his business Durango Livestock (252021 Hwy 511) today however he was not located. His family members and coworkers indicated he was not there however it is my belief they will be trying to hide him from us. The adults at the residence and at

Durango Livestock were all pretty sketchy and were taking video of us as we were leaving the property.

When I spoke with Alex on the phone Tuesday he stated he would not turn himself in to police and that we would need to bring a "big army" when we did find him.

Alex is a big anti-vaccination and anti mask advocate as well as other government tyranny ideology. These charges (Mischief and Obstruct PO) stem from a protest that he attended this past summer. Alex's Facebook page is riddled with anti government and anti vaccination / masking posts.

Information is that Alex has about 10 or so people who strongly support him and may defend him or obstruct police should we attempt to arrest him. We do not know exactly how Alex or his support people will react if confronted.

I have also attached the Appearance Notice that we were going to release him with in case we are dealing with him in the near future.

We will discuss further with SAD CRU and try to figure out how we might track Alex down away from his residence or business.

FYI.

Good day **Pers**

I am betting you heard about the 4 guys at the Coutts Protests that were charged with conspiracy to commit murder. One of them is Anthony OLIENICK whom is local to Claresholm or nearby. I am curious if the Town can help me with the following regarding him:

1. Does he own a house in town and if so what is the address?
2. Can the town confirm he is the business owner of Iron Rock Enterprises at 35 Sask Crescent?
3. Does he have any other properties in town, if so what is the addresses?

Let me know, feel free to call if any questions.

Good day Derrick,

I am betting you heard about the 4 guys at the Coutts Protests that were charged with conspiracy to commit murder. One of them is Anthony OLIENICK whom is local to Claresholm or somewhere nearby. I am curious if the M.D. can help me with the following regarding him:

1. Does he own a house in the MD and if so what is the address?
2. Does he have any other properties such as businesses in the M.D , if so what is the addresses?
3. Do you know of any other properties he is affiliated to in the M.D.?

Let me know, feel free to call if any questions. Please keep this on the down low.

[VRT Equipment List week of 20220225 Passover to Farid.xlsx](#)

Farid / Gord,

Farid, thanks for leading the VRT team on this next and final rotation. Attached is the updated Ops Plan for Vehicle Removal with Appendix and the updated Equipment List. Also, please note the following:

1. Team on shift is:
 - a. Cst. Chris KIRBY
 - b. Cpl. Rylee GUCKERT
 - c. Cpl. Holly LEFRANCOIS
 - d. Sgt. Farid SIDDIQUI – NCO i/c of the team.
2. Shift dates are:
 - a. Feb 23 – Travel day to operation.
 - b. Feb 24 – Crossover training day.
 - c. Feb 25 to Feb 28 – Work days of 10:00 hrs to 22:00 hrs.
 - d. Mar 1 – Travel day out.
3. Seized vehicles (Tractor, gravel truck, semi) are stored at ATR Towing in Airdrie. Contact is **Personal** at **Personal**. **Persq** can keep them indefinitely and can take more if needed but must contact him ahead of time.
4. Tractor back window shattered during transport – **Persq** with ATR will have it fixed – no need for Civil Lit claim from what I see.
5. Tridrive Western Star that was hauling the tractor is now parked at the GOA lot.
6. GOA lot is located at 505 30 Street N in Lethbridge. Entry code is 1354 on the right side key pad.
7. Flat was fixed on orange tow truck that is currently in the GOA yard.
8. Flat on dollies was fixed on the tow truck at Coutts.
9. The 4 light plants that we had in the GOA lot were transported back to the Provincial Stockpile in Aldersyde.
10. Going forward:
 - a. On or near Feb 28, move the 4 tow trucks from Coutts to the GOA site – **Lot manager asks that we do not block the trailers on the west side of yard as he needs access.**
 - b. **Personal Info.** of the Alberta Sheriffs is arranging for a GOA official to meet your team at the GOA lot early afternoon on Feb 28 to collect keys.
11. **Personal Info.** (in charge of tow assets – **Personal Info.**) is aware of our plan to park all equipment at the GOA lot on or near Feb 28 – he is going on Leave if not already.

12. GOA lot manager **Personal Info.** is aware of our plan to park all equipment at the GOA lot on or near Feb 28.
13. As part of the back up plan, I have requested that GOA leave the tow trucks in the GOA lot for as long as possible in case we have to redeploy to the border in the near future.
14. No plans to staff VRT after your set.
15. I will have my cell on if needed **Irrelevant**. I am also only 1 to 2 hours away if needed for anything.

Here is what I have for plates and info - all these are major offenders at the south end. There will be more to follow cause everyone is scattered right now:

1. **Personal Info.** [REDACTED] has 4 semi trucks and trailers at the south blockade - major and obvious offenders. Some of the plates below may come back to them.
2. **Personal Info.** [REDACTED] - Truck and trailer - plate **Personal** [REDACTED] - Major offender.
3. The jack knifed semi that started the blockade NB - plate is **Personal** [REDACTED] plate. Tractor is **Personal** [REDACTED] plate. Plate was bent upwards so could not be easily read.
4. Black truck and trailer- **Personal** [REDACTED] plate.
5. Red GMC truck **Personal** [REDACTED]
6. Silver or white Dodge **Personal** [REDACTED]
7. Blue semi **Personal** [REDACTED]
8. White chev pulling trailer **Personal** [REDACTED]
9. Grey chev silverado **Personal** [REDACTED]
10. trailer - **Personal** [REDACTED]
11. **Personal Info.** [REDACTED]
12. [REDACTED]
13. [REDACTED]
14. [REDACTED]
15. [REDACTED]

Hey folks,

You are probably all over this but thought I would mention that it would be most beneficial to create and hold a list of Members that have served on the VRT team in Coutts including phone number and geographical location should we need to re-deploy back to the border or elsewhere.

[VRT Operational Backup Plan.docx](#)

Gents,

I'm looping you all in on this given your involvement as Commanders with the Coutts VRT. S/Sgt ZANIDEAN requested a backup plan with VRT should protestors try to take the roads back near Coutts or any other area. Attached is a brief plan called "VRT Operational Backup Plan". It is only version 1 and I am waiting for additional information from DEOC including other VRT members and contact numbers but wanted to push this out today so we have at least something should something develop in the near future. Also included is the latest version of the original Ops Plan and maps which cannot be ignored should we re-deploy. Basically, the biggest thing we need should another deployment be required is information about where the Tow Trucks are, how to get them, and who and how to activate team members. I think the document captures that for the most part. The key is to activate members that have already served on the VRT team as they are experienced with the equipment. If anyone sees any issues with the document or has anything they want to add let me know.

If it should be sent to someone else as well, please do so and let me know.

On a side note, it was great working with all of you and hope to see you all soon.

Subject: VRT Equipment
Date: March 2, 2022 9:51:00 AM

Gents,

In followup to our meeting today and considering that we may have to utilize the tow equipment again, here is some noteworthy points specific to the Tow Equipment:

I had a long phone conversation with **Personal Info.** on Monday. Long story short is there was a big question mark, on their end, what they should do with the tow equipment. The tow equipment was bought specifically for us and the Coutts Border issue which appears to be done now. Further to that, the trucks were exempt from CVIPs under an Emergency Clause which expired March 1 meaning that most of the equipment is now subject to a CVIP inspection before being used again. Further to this, they were looking at moving the trucks to an Edmonton facility.

After discussions, the following decisions have been made:

1. The tow equipment will remain in the GOA yard till the end of March and is there for us to use if the need arises again. It is noteworthy that the GOA yard does not have any security elements in place other than a fence and the odd worker attending the yard.
2. GOA will have each truck certified under the CVIP program but will only do one truck at a time. GOA will converse with me regarding progress and issues. This started yesterday.
3. The tow trucks will be moved to the GOA Edmonton facility at the end of March; this is a secure indoor facility. RCMP will still have access to the vehicles if needed.
4. GOA has agreed to hang onto the trucks till the end of summer at which time they will re-visit the need to keep them.
5. The C.O. has been given an agreement to sign regarding liability when using the trucks.

Further to this, I have spoken to DEOC and tasked them to build a list of Tow members that served time on the VRT team (trained with the equipment). The list will contain names, phone numbers, and geographical location of the members and serve as a list that can be accessed should quick deployment of the tow equipment and operators be needed.

Subject: VRT submission
Date: March 17, 2022 1:15:00 PM
Attachments: [VRT Operational Backup Plan.docx](#)

Gents,

I understand that district was looking for a short paragraph from each unit including VRT for the purpose of adding to a short Ops Plan regarding the Milk River Situation. Below is something I drafted for the Vehicle Recovery Team (VRT). It is short and to the point but I think the basics are covered. If more detail is needed let me know. I asked Farid to review it but thinking he is on days off – if he has any other input we will advise. Submission:

Vehicle Recovery Team (VRT) Update:

In response to the ongoing occupation of the legal protest site at Milk River Alberta, representatives and custodians of the Government of Alberta (GOA) Tow Equipment were contacted on 2022-March-16, and were advised that the potential for RCMP to deploy the GOA tow equipment is now elevated. GOA representatives have confirmed that the tow equipment remains available to RCMP and remains in the Lethbridge area. With that said, the tow equipment is now at 2 different locations in Lethbridge being the GOA yard located at 505 30th Street North and Fleet Brake located at 4005 9 Ave North. The tow equipment at Fleet Brake is being inspected and maintained but remain in a state of readiness at most or all times as previously arranged. Sgt. HARMS and Sgt. SIDDIQUI possess a list of the available equipment and its specific location at this time.

With respect to the storage of seized vehicles, on 2022-March-16 an arrangement was made with TNT Towing and Salvage in Lethbridge to store seized vehicles. TNT can accommodate several small and medium sized vehicles including holiday trailers. TNT is located at 218 36 Street North, Lethbridge.

Should the need develop to tow and or seize vehicles, an assessment should first be done on environmental conditions of the site including if the ground is firm enough to support heavy equipment; gravel may be required in substandard conditions. Further assessment will be necessary to determine number, size, and types of vehicles to be towed. Should the tow operation be deemed small and low risk, consideration should be given to using local tow companies including TNT vs. deployment of the VRT. Should the need arise to activate the VRT, the attached VRT Operational Backup Plan should be referred to; it includes selecting a VRT Commander, notification to GOA of need for equipment deployment, selecting VRT operators, and deploying. Number of VRT operators to be deployed and number and type of tow equipment to be used will be dictated by the assessment of number, size, and type of vehicles to be towed. VRT operators have not yet been selected as time frames of possible deployment are not yet known. It must be noted that timely VRT deployment requires as much advanced notice as possible.

** VRT Operational Backup Plan attached.

District is asking for a short update (1 paragraph type thing) from each unit supporting the Milk River Operations that they can add into a short OPS PLAN regarding the potential to act on the small group of protesters at Milk River. Can you have a look at this and let me know if you have anything to add or want changed on the VRT side?

Vehicle Recovery Team (VRT) Update:

In response to the ongoing occupation of the legal protest site at Milk River Alberta, representatives and custodians of the Government of Alberta (GOA) Tow Equipment were contacted on 2022-March-16, and were advised that the potential for RCMP to deploy the GOA tow equipment is now elevated.
